REFERENCE MAP

A reference map of the stadium seating area. It shows a large rectangular area with rounded corners, divided into a grid of smaller rectangular sections. The central area is labeled 'SEATING'. The grid is composed of lines representing the boundaries of the seating sections. The map is oriented with the top of the stadium at the top of the page.

MATERIALS AND  
COLOURS

CON-01  
Off Form concrete - Class 2  
Concrete Finish  
Refer to Structural Engineers Specification

Colour: Standard grey

BLK-01  
Concrete Blockwork - 190mm  
Blockwork  
Concrete face blockwork  
Manufacturer/ reference: Austral Masonry/ Australite Series Smooth Face  
Reference: 200 series  
Joints: Ironed  
Bonds: Stretcher or stack as detailed in the Design Drawings.  
Paint Finish

Colour: Dark Grey

PRE-01.1  
Precast Panel  
Precast Concrete  
Precast panel on steel sub frame  
Finish class: Smooth face to normal or Class 2 concrete shall comply with AS 1379 and AS 3610 to exposed face and edges of panels  
Edges: Stone arised edges  
Textured section: Form liner in single piece  
Paint Finish

Colour: Standard Grey

PRE-01.2  
Precast Panel  
Precast Concrete  
As per Type PRE-01.1:  
• Pattern profile: Texture 01

Colour: Standard Grey

PRE-01.3  
Precast Panel  
Precast Concrete  
As per Type PRE-01.1:  
• Pattern profile: Texture 02

Colour: Standard Grey

PRE-12  
Precast Sealing Bowl  
Precast Concrete  
Precast - Sealing Bowl  
Paint - External Structural Steel (Visible Exposed to Weather)  
Finish class: Normal or Class 2 concrete shall comply with AS 1379 and AS 3610 to exposed face and edges of panels

Colour: Standard Grey

FCS-01  
Fibre Cement Exterior Sheet  
Wall Cladding  
Flush jointed cellulose fibre reinforced sheeting  
• Tape and set recessed joints finished to receive applied finish  
• Provide external grade 10mm shadow line trim to perimeter edges

Finish: Applied paint finish  
• Colour: To be selected

FMS-01  
Metal Roof Sheet  
Metal Roofing / Wall Cladding  
Wide cover concealed fixed metal roofing with ribs rising from flat pans complete with all standard and non standard accessories and incidentals  
Manufacturer/ reference: Bluescope Lysaght/ Klip lok 700 Hi Strength

Colour: Walaby

FMS-02  
Metal Wall Cladding  
Metal Roofing / Wall Cladding  
Wide cover concealed fixed metal roofing with ribs rising from flat pans complete with all standard and non standard accessories and incidentals  
Manufacturer/ reference: Bluescope Lysaght/ Klip lok 700 Hi Strength

Colour: Walaby

RCS-01  
PTFE Roof  
Roof Cladding System  
PTFE Fabric Roof Cladding  
Semi transparent white fabric with Stainless steel fixings

Colour: Off White

RCS-02  
ETFE Roof  
Roof Cladding System  
ETFE Roof Cladding  
Clear finish with stainless steel cables and fixings

Colour: Clear

PNT-03.1  
Paint - External Structural Steel (Visible Exposed to Weather)  
Structural Steel Paint  
Primary Steel columns and rafters to sealing bowl  
Structural Steel Coating system to C3 Corrosive environment  
Gloss level: Semi Gloss

Colour: Dark Grey

PNT-03.2  
Paint - External Structural Steel (Visible Exposed to Weather)  
Structural Steel Paint  
Roof Steel  
Structural Steel Coating system to C3 Corrosive environment  
Gloss level: Semi Gloss

Colour: White

MGT-01  
Metal Gate 1  
Architectural Metalwork  
Turnstiles and entry gates  
Galvanised steel framed gate with chainwire infill To be detailed

FBS-02.1  
Facade Batten System  
Wall Cladding  
Aluminium profile battens as detailed in the Design Drawings. Pre-mounted spring steel fixing clips which grasp specially profiled battens in a simple push on 'click' action  
Manufacturer/ reference: Woodform Architectural/ Concept Click or acceptable equivalent  
• i. Profile and Dimensions: to match FBS-01 (100mm centres)  
• ii. Open area: 50%

Colour: Batten finish: Woodgrain

FBS-02.2  
Facade Batten System  
Wall Cladding  
Aluminium profile battens as detailed in the Design Drawings. Pre-mounted spring steel fixing clips which grasp specially profiled battens in a simple push on 'click' action  
Manufacturer/ reference: Woodform Architectural/ Concept Click or acceptable equivalent  
• i. Profile and Dimensions: to match FBS-01 (200mm centres)  
• ii. Open area: 80%

Colour: Batten finish: Woodgrain

FBS-03  
Facade Batten System  
Soffit  
Aluminium profile battens as detailed in the Design Drawings. Pre-mounted spring steel fixing clips which grasp specially profiled battens in a simple push on 'click' action  
Manufacturer/ reference: Woodform Architectural/ Concept Click or acceptable equivalent  
• i. Profile and Dimensions: to match FBS-01 (200mm centres)  
• ii. Open area: 80%

Colour: Batten finish: Woodgrain

FGL-01  
Glazing Assembly 01  
Facade Glazing  
Aluminium framed glazing system for doors and windows

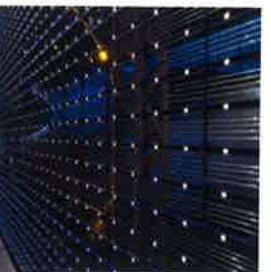

Colour: Black powdercoated aluminium

FLV-01  
Class A Weatherproof Louvers - Concealed Frame Louvers  
Populatus weatherproof class A extruded concealed framed aluminium louvers in locations nominated on the Design Drawings  
Manufacturer/ reference: Cok Proteus PR 100 or acceptable equivalent  
Louvre pitch:  
• 100mm (Deep)  
Free area: Refer to the Mechanical Engineer's Specification  
Behind louvers: provide bentwire or blank off with black colorbond steel metal where louvers are not active  
Finish: Powder coated in accordance with Section 08 100. Finish type shall be applicable to the individual building  
Colour: Dark grey, brown to match FBS-01

FPL-01  
Roof Planter Bed  
Roof cladding  
Planter beds to terrace and roof - multi concrete  
Native low level plants as specified by Landscape Architect  
Colour: Natural

#### NOTES:

The sign types shown are for overall scale and generic content layout of each sign. Design intent for each sign type is to be progressed. All signs to have anti-graffiti overlay finish.

#### DESIGN INTENT

**PF1** - Primary level directional signage takes its design intent from the steel structure of the stadium. It provides identification of entry gates and directional information for navigating around stadium precinct. Sign is 2 sided and incorporates digital screen on each face to provide supporting event wayfinding information, general event information, and upcoming event promotion. Consideration to incorporate sign location and features with required plaza lighting and CCTV for efficiency of footing, power and data requirements. Sign is fabricated from steel column bolted together, with aluminium sign panel and all over powdercoat finish.

**PF2** - Secondary level directional signage provides information for navigating around the stadium and with surrounding areas (Parramatta Park etc). Sign is fabricated from aluminium with powdercoat finish and digital printed message.

**PF3** - Features LED screen for adaptable use on event and non-event day. Screen to provide directional information for car parking and events. Sign is fabricated from aluminium with powdercoat finish.

**GD1** - Gate Identification is a 3d channel letter internally lit and fixed above entrance gates. Sign is fabricated from aluminium with powdercoat finish, with opal acrylic sign face.

**CP1** - Car Park Identification provides information on car park number and directional information. Sign is fabricated from aluminium with powdercoat finish and fixed to car park light poles.

Approved Application No. 450 8175

granted on the 31/8/17

Signed [Signature]

Sheet No. 23 of 37

EXISTING TREES

The Western Sydney Stadium site includes a number of existing trees of various species, sizes and conditions. While some trees will be retained within the proposed scheme, in total approximately 189 existing trees are proposed for removal, with approximately 127 of these already approved for removal as part of the Stage 1 DA. Please note in some instances dense clusters of trees have been grouped together in one tree number.

The Biological Assessment prepared by Ecological Australia, as part of the Stage 1 Development Application for the stadium, identified the significant vegetation community – River Flat Eucalyptus Forest, adjacent to the stadium precinct. None of the trees proposed for removal fall within this vegetation community – all are planted native and exotic species.

Approximately 4 trees identified within cluster no. 60 fall within the Grey Headed Flying Fox 50m buffer zone although a number of indigenous tree species are proposed to replace these within this immediate area.

Trees approved for removal in Stage 1  
A number of existing trees are already approved for removal as outlined within the Stage 1 Development Application for the site. These trees include Trees 1-31, 33, 34, 56-59, 41-43, 69, 66-74, 77-78.

Additional trees to be removed  
A number of additional trees are required for removal as part of the Stage 2 DA submission.  
These trees comprise of those numbered 40, 44, 45, approximately 6 trees in the group labelled 46, and trees 48, 50, 51, 53, 54, 57, 58, 71, 75 and 76. Trees numbered 44-46 located along O'Connell Street require removal in order to provide equitable pedestrian access to the Civic Plaza and main stadium entry from Victoria Road and the O'Connell Street footpath. These trees are currently planted on a raised berm which inhibits pedestrian flows from the street. Tree 40, also located along O'Connell Street is a Camphor Laurel tree in poor condition and is also proposed to be removed.

Trees within group 60 and 64 are proposed to be removed to accommodate the new Northern Carpark, as they are located within areas required for vehicular circulation and car parking.  
Further to these trees an additional 30 trees numbered 79-103 are required to be removed due to the reconfiguration of Parramatta Park Trust's Southern Carpark. The reconfiguration is required in order to accommodate the 360 degree ring road needed around the stadium for servicing and vehicular movements.

Mitigation of tree loss  
The masterplan proposed to mitigate the loss of trees through the site by introducing in excess of 200 new trees predominantly of locally indigenous species through the site in more suitable locations that allow the stadium to function as per the required brief.  
\* Refer to Arborist report – for further information regarding existing trees: Dr TreeGood Jobs: 61401 Ref: 2017-672
