| | …… | | |
| Date | 29/08/2019…… | Date | …… |

Note that only one signature is required if the person signing this notice is **not** signing on behalf of a company.

## Lawful authority to use place as waste facility for the specified waste

The place can lawfully be used for the types of waste described in the notice **because** (Delete whichever is not applicable):

~~**A.** This use is permitted by EPA licence number: ……~~

~~Or~~

An EPA licence is not required (for example, a resource recovery exemption may apply)

**And because** (Delete whichever is not applicable):

**B.**~~The place has consent or approval under the *Environmental Planning and Assessment Act 1979* for the uses described in the table above~~.

Or

~~The place can be used as a waste facility without consent or approval under the *Environmental Planning and Assessment Act 1979*.~~

The use(s) for the waste at the place are: ……

Land owners and occupiers should note that it is an offence to use land as a waste facility without lawful authority, see section 144 of the *Protection of the Environment Operations Act 1997* (POEO Act). It is also an offence to carry out an activity listed in Schedule 1 to the POEO Act without and Environment Protection Licence when one is required (see section 48). Offences carry a maximum penalty of $250,000 for an individual and $1,000,000 for a corporation. In the case of a continuing offence, a further penalty applies for each day the offence continues, being $60,000 for an individual and $120,000 for a corporation.

**Regardless of this notice, any person who carries out any development or activity on land involving waste must ensure they comply with any planning requirements including obtaining any planning consent or approval and complying with any conditions attached to that consent or approval**

## Information about this notice

Waste is a very broad concept under the law and covers many types of materials you may not think of as waste; for example, it covers waste tyres, building and demolition materials and virgin excavated natural material.

Under the POEO Act, a waste facility includes any premises used for storage, treatment, processing, sorting or disposal of waste. For example, if you are planning to build a road or dam, or fill a gully, this could involve using your place as a waste facility.

Section 143 of the POEO Act makes it an offence to transport waste to a place that cannot lawfully be used as a

waste facility for that waste. The notice above is the approved notice under section 143 (3A) of the POEO Act. If you sign this notice it may be used as a defence by a transporter if they are charged with unlawfully transporting or depositing waste on your land. It does not give you a defence to using your land as a waste facility without lawful authority.

If you sign this notice, you should give it to the transporter or display it at the waste facility. The transporter should keep the original and you should keep a copy.

If the landowner or occupier signing this notice is a company, the full name of the company and ACN should be used and the notice must be executed in accordance with the Corporations Law.

If you operate an unlicensed landfill site for business or commercial purposes you should contact the EPA to discuss reporting and operating requirements.

If you are not sure if you require an EPA licence you can ring the Environment Line on 131 555.

You are likely to need development consent to use your land as a waste facility. If you are not sure if you require development consent you should contact your local council.

## COPY: TO BE KEPT BY LANDOWNER AND KEPT FOR RECORDS

# ORIGINAL: TO BE COMPLETED BY LANDOWNER AND GIVEN TO WASTE TRANSPORTER OR DISPLAYED AT WASTE FACILITY

**APPROVED NOTICE UNDER SECTION 143**

***PROTECTION OF THE ENVIRONMENT OPERATIONS ACT 1997***

**WARNING: If you sign this notice it could be used as a defence by a transporter if they deposit waste on your land. It does not give you a defence. It is an offence to provide false or misleading information about waste (section 144AA)**

I (*full name*) ….Stephen Bruce Nutman…….....

am the owner and/or occupier (*delete if not applicable*) of (*insert street address and/or folio identification number of place*):

…..Renworx Pty Ltd - Principle contractor at Gannons Park , Peakhurst……...

……...

certify that this place can lawfully be used as a waste facility for the **waste(s) specified** in the following table.

(Note: you must clearly state the exact type. Do not use terms like 'fill' or 'clean fill'.)

## Table of specified wastes

| **Type of waste**<br>e.g. virgin excavated natural material | **Classification of waste**<br>e.g. general solid waste | **Amount of waste**<br>e.g. 50 tonnes |
|---|---|---|
| …… | …….. | …… |
| Clay/Shale | Virgin Excavated Natural Material | 2,200 m3 |
| …… | …… | …… |
| …… | …… | …… |

## Before signing this notice you should read the back of this form for important information about offences.

| | | | |
|---|---|---|---|
| Signature | …… | Signature | …… |
| Name | Stephen Nutman…… | Name | …… |
| Position title (e.g. director, owner, occupier) | Managing Director | Position title (e.g. director, owner, occupier) | …… |
| ACN | 18 385 493…… | ACN | …… |
| Date | 25th September 2019 | Date | …… |

Note that only one signature is required if the person signing this notice is **not** signing on behalf of a company.

## Lawful authority to use place as waste facility for the specified waste

The place can lawfully be used for the types of waste described in the notice **because** (Delete whichever is not applicable):

**A.** This use is permitted by EPA licence number: .....

Or

An EPA licence is not required (for example, a resource recovery exemption may apply)

**And because** (Delete whichever is not applicable):

**B.**The place has consent or approval under the *Environmental Planning and Assessment Act 1979* for the uses described in the table above.

Or

The place can be used as a waste facility without consent or approval under the *Environmental Planning and Assessment Act 1979*.

The use(s) for the waste at the place are: ……

Land owners and occupiers should note that it is an offence to use land as a waste facility without lawful authority, see section 144 of the *Protection of the Environment Operations Act 1997* (POEO Act). It is also an offence to carry out an activity listed in Schedule 1 to the POEO Act without and Environment Protection Licence when one is required (see section 48). Offences carry a maximum penalty of $250,000 for an individual and $1,000,000 for a corporation. In the case of a continuing offence, a further penalty applies for each day the offence continues, being $60,000 for an individual and $120,000 for a corporation.

**Regardless of this notice, any person who carries out any development or activity on land involving waste must ensure they comply with any planning requirements including obtaining any planning consent or approval and complying with any conditions attached to that consent or approval**

## Information about this notice

Waste is a very broad concept under the law and covers many types of materials you may not think of as waste; for example, it covers waste tyres, building and demolition materials and virgin excavated natural material.

Under the POEO Act, a waste facility includes any premises used for storage, treatment, processing, sorting or disposal of waste. For example, if you are planning to build a road or dam, or fill a gully, this could involve using your place as a waste facility.

Section 143 of the POEO Act makes it an offence to transport waste to a place that cannot lawfully be used as a waste facility for that waste. The notice above is the approved notice under section 143 (3A) of the POEO Act. If you sign this notice it may be used as a defence by a transporter if they are charged with unlawfully transporting or depositing waste on your land. It does not give you a defence to using your land as a waste facility without lawful authority.

If you sign this notice, you should give it to the transporter or display it at the waste facility. The transporter should keep the original and you should keep a copy.

If the landowner or occupier signing this notice is a company, the full name of the company and ACN should be used and the notice must be executed in accordance with the Corporations Law.

If you operate an unlicensed landfill site for business or commercial purposes you should contact the EPA to discuss reporting and operating requirements.

If you are not sure if you require an EPA licence you can ring the Environment Line on 131 555.

You are likely to need development consent to use your land as a waste facility. If you are not sure if you require development consent you should contact your local council.

# COPY: TO BE KEPT BY LANDOWNER AND KEPT FOR RECORDS

**APPROVED NOTICE UNDER SECTION 143**

***PROTECTION OF THE ENVIRONMENT OPERATIONS ACT 1997***

**WARNING: If you sign this notice it could be used as a defence by a transporter if they deposit waste on your land. It does not give you a defence. It is an offence to provide false or misleading information about waste (section 144AA)**

Re Job: PENSHURST PUBLIC SCHOOL, 510 FOREST ROAD, PENSHURST
Report Number: E30104Plet-WC1

Dear George,

I am confirming that the material quoted for at Penshurst Public School is acceptable under our Environmental Protection Licence 4608. If you need any more clarification or have any questions, please call or email.

Regards,
Ian Spencer

Site Manager

Breen Resources Pty Ltd ABN 31 615 045 497
330 Captain Cook Drive, Kurnell NSW 2231
m 0418274468 | o (02) 9668 8539| f (02) 9668 9232
email: ian@breen.com.au
web: www.breen.com.au

**Note**: Breen Resources is licenced to receive waste that includes ENM, VENM, Building & Demolition Waste and Soils meeting the General Solid Waste criteria. **NO** Green, Restricted or Hazardous wastes are accepted. For a full list of acceptable licenced material please refer to our EPA Licence 4608 that can be found at www.epa.nsw.gov.au . It is the responsibility of the owner of the material to confirm that the disposal site can legally accept the waste being disposed.

EPA

# ORIGINAL: TO BE COMPLETED BY LANDOWNER AND GIVEN TO WASTE TRANSPORTER OR DISPLAYED AT WASTE FACILITY

## APPROVED NOTICE UNDER SECTION 143

*PROTECTION OF THE ENVIRONMENT OPERATIONS ACT 1997*

**WARNING: If you sign this notice it could be used as a defence by a transporter if they deposit waste on your land. It does not give you a defence. It is an offence to provide false or misleading information about waste (section 144AA)**

I (*full name*) ..... Ian Spencer .....

am the owner and/or occupier (*delete if not applicable*) of (*insert street address and/or folio identification number of place*):

..... 330 Captain Cook Dr KURNELL .....

.....

certify that this place can lawfully be used as a waste facility for the **waste(s) specified** in the following table.

(Note: you must clearly state the exact type. Do not use terms like 'fill' or 'clean fill'.)

## Table of specified wastes

| **Type of waste** e.g. virgin excavated natural material | **Classification of waste** e.g. general solid waste | **Amount of waste** e.g. 50 tonnes |
|---|---|---|
| Soils/ Building Rubble | General Solid Waste | 1600t. |
| | | |
| | | |
| | | |

## Before signing this notice you should read the back of this form for important information about offences.

| | | | |
|---|---|---|---|
| Signature | ..... | Signature | ..... |
| Name | Ian Spencer | Name | ..... |
| Position title (e.g. director, owner, occupier) | Site Manager | Position title (e.g. director, owner, occupier) | ..... |
| ACN | 615 045 197 | ACN | ..... |
| Date | 17/7/19 | Date | ..... |

Note that only one signature is required if the person signing this notice is **not** signing on behalf of a company.

## Lawful authority to use place as waste facility for the specified waste

The place can lawfully be used for the types of waste described in the notice **because** (Delete whichever is not applicable):

**A.** This use is permitted by EPA licence number: ..... 4604 .....

Or

~~An EPA licence is not required (for example, a resource recovery exemption may apply)~~

**And because** (Delete whichever is not applicable):

**B.** The place has consent or approval under the *Environmental Planning and Assessment Act 1979* for the uses described in the table above.

Or

~~The place can be used as a waste facility without consent or approval under the *Environmental Planning and Assessment Act 1979*.~~

The use(s) for the waste at the place are: ..... Landfill .....

Land owners and occupiers should note that it is an offence to use land as a waste facility without lawful authority, see section 144 of the *Protection of the Environment Operations Act 1997* (POEO Act). It is also an offence to carry out an activity listed in Schedule 1 to the POEO Act without and Environment Protection Licence when one is required (see section 48). Offences carry a maximum penalty of $250,000 for an individual and $1,000,000 for a corporation. In the case of a continuing offence, a further penalty applies for each day the offence continues, being $60,000 for an individual and $120,000 for a corporation.

**Regardless of this notice, any person who carries out any development or activity on land involving waste must ensure they comply with any planning requirements including obtaining any planning consent or approval and complying with any conditions attached to that consent or approval**

## Information about this notice

Waste is a very broad concept under the law and covers many types of materials you may not think of as waste; for example, it covers waste tyres, building and demolition materials and virgin excavated natural material.

Under the POEO Act, a waste facility includes any premises used for storage, treatment, processing, sorting or disposal of waste. For example, if you are planning to build a road or dam, or fill a gully, this could involve using your place as a waste facility.

Section 143 of the POEO Act makes it an offence to transport waste to a place that cannot lawfully be used as a waste facility for that waste. The notice above is the approved notice under section 143 (3A) of the POEO Act. If you sign this notice it may be used as a defence by a transporter if they are charged with unlawfully transporting or depositing waste on your land. It does not give you a defence to using your land as a waste facility without lawful authority.

If you sign this notice, you should give it to the transporter or display it at the waste facility. The transporter should keep the original and you should keep a copy.

If the landowner or occupier signing this notice is a company, the full name of the company and ACN should be used and the notice must be executed in accordance with the Corporations Law.

If you operate an unlicensed landfill site for business or commercial purposes you should contact the EPA to discuss reporting and operating requirements.

If you are not sure if you require an EPA licence you can ring the Environment Line on 131 555.

You are likely to need development consent to use your land as a waste facility. If you are not sure if you require development consent you should contact your local council.

5 July 2019

Cleanaway Erskine Park Landfill
Cleanaway t/a Enviroguard Pty Ltd
ABN: 23 060 919 164
85-87 Quarry Rd
Erskine Park NSW 2759
Australia
P +61 2 9834 0402

To whom it may concern,

The purpose of this letter is to confirm that the following low level contaminated soils (LLCS) are acceptable for disposal at the Cleanaway t/a Enviroguard Erskine Park landfill located at 85-87 Quarry Road under EPL 4865:

- General Solid Waste (non-putrescible) LLCS soil
- General Solid Waste (non-putrescible) LLCS soil Immobilised
- General Solid Waste (non-putrescible) Special Waste Asbestos contaminated soil

All materials are subject to formal waste classification testing prior to acceptance.

If you have any further queries, please do not hesitate to contact the undersigned on (02) 9834 0402.

Yours sincerely

Paul Spolder
Landfill Sales Manager

Cleanaway Erskine Park Landfill
Cleanaway Pty Ltd t/a Enviroguard Pty Ltd
ABN: 23 060 919 164
85-87 Quarry Rd
Erskine Park NSW 2759
Australia
P +61 2 9834 0402

To whom it may concern,

**Re: PENSHURST PUBLIC SCHOOL, 510 FOREST ROAD, PENSHURST NSW**

The purpose of this letter is to confirm following review of report Ref: E30104Plet-WC1 Penshurst compiled by JK Environments and supplied by Remedial Civil the materials classified as "general solid waste (non-putrescible) special solid waste" is acceptable for disposal at the Cleanaway Pty Ltd t/a Enviroguard Pty Ltd Erskine Park landfill located at 85-87 Quarry Road under EPL 4865.

The approximate volume is estimated at 1200/t.

Cleanaway Pty Ltd accepts no liability for any errors or omissions resulting from the consultant's report Ref: E30104Plet-WC1 Penshurst.

If you have any further queries, please do not hesitate to contact the undersigned on (02) 9834 0402.

Yours sincerely

Paul Spolder

MOOREBANK NSW 1875

10th August 2019

Acceptance Letter for Genesis Landfill and Recycling Centre

Hi George,

See below confirmation of our landfill Licence and acceptance of asbestos soil.

Address: 510 Forest Rd (Penshurst Public School) PENSHURST
Ref: E30104Plet-WC1
Report: E30104Prpt3 Penshurst
Grid: 3, 8, 10 and 12 (Waste Stream 2):
Quote No L1007232
Material: Asbestos Soil
Volume: 5,000 tonnes
Disposal Date: August & September 2019

**Landfill**

Dial a Dump Industries/Bingo Industries are licenced to accept asbestos waste materials, including but not limited to asbestos soils, asbestos waste & GSW materials in our landfill at Eastern Creek. The facility operates under EPA licence 13426 and can accept 700,000 tonnes per annum into the landfill.

We are able to accept material providing we receive a waste classification report and the report meets our licence requirements.

Landfill site is located at 1 Kangaroo Ave Eastern Creek.

Yours sincerely,

MWalters

Maxzine Walters
Sales Manager - Resource Recovery
Bingo Industries
0418 600 008

# Appendix K: Explanatory Notes

# QA/QC Definitions

The QA/QC terms used in this report are defined below. The definitions are in accordance with US EPA publication SW-846, entitled *Test Methods for Evaluating Solid Waste, Physical/Chemical Methods* (1994)[11] methods and those described in *Environmental Sampling and Analysis, A Practical Guide,* (1991)[12].

**A. Practical Quantitation Limit (PQL), Limit of Reporting (LOR) & Estimated Quantitation Limit (EQL)**

These terms all refer to the concentration above which results can be expressed with a minimum 95% confidence level. The laboratory reporting limits are generally set at ten times the standard deviation for the Method Detection Limit for each specific analyte. For the purposes of this report the LOR, PQL, and EQL are considered to be equivalent.

When assessing laboratory data it should be borne in mind that values at or near the PQL have two important limitations: *"The uncertainty of the measurement value can approach, and even equal, the reported value. Secondly, confirmation of the analytes reported is virtually impossible unless identification uses highly selective methods. These issues diminish when reliably measurable amounts of analytes are present. Accordingly, legal and regulatory actions should be limited to data at or above the reliable detection limit*" (Keith, 1991).

**B. Precision**

The degree to which data generated from repeated measurements differ from one another due to random errors. Precision is measured using the standard deviation or Relative Percent Difference (RPD).

**C. Accuracy**

Accuracy is a measure of the agreement between an experimental result and the true value of the parameter being measured (i.e. the proximity of an averaged result to the true value, where all random errors have been statistically removed). The assessment of accuracy for an analysis can be achieved through the analysis of known reference materials or assessed by the analysis of surrogates, field blanks, trip spikes and matrix spikes. Accuracy is typically reported as percent recovery.

**D. Representativeness**

Representativeness expresses the degree to which sample data accurately and precisely represents a characteristic of a population, parameter variations at a sampling point, or an environmental condition. Representativeness is primarily dependent upon the design and implementation of the sampling program. Representativeness of the data is partially ensured by the avoidance of contamination, adherence to sample handing and analysis protocols and use of proper chain-of-custody and documentation procedures.

**E. Completeness**

Completeness is a measure of the number of valid measurements in a data set compared to the total number of measurements made and overall performance against DQIs. The following information is assessed for completeness:

- Chain-of-custody forms;
- Sample receipt form;

[11] US EPA, (1994). *SW-846: Test Methods for Evaluating Solid Waste, Physical/Chemical Methods.* (US EPA SW-846)

[12] Keith., H, (1991). *Environmental Sampling and Analysis, A Practical Guide.*

- All sample results reported;
- All blank data reported;
- All laboratory duplicate and RPDs calculated;
- All surrogate spike data reported;
- All matrix spike and lab control spike (LCS) data reported and RPDs calculated;
- Spike recovery acceptable limits reported; and
- NATA stamp on reports.

### F. Comparability

Comparability is the evaluation of the similarity of conditions (e.g. sample depth, sample homogeneity) under which separate sets of data are produced. Data comparability checks include a bias assessment that may arise from the following sources:

- Collection and analysis of samples by different personnel; Use of different techniques;
- Collection and analysis by the same personnel using the same methods but at different times; and
- Spatial and temporal changes (due to environmental dynamics).

### G. Blanks

The purpose of laboratory and field blanks is to check for artefacts and interferences that may arise during sampling, transport and analysis.

### H. Matrix Spikes

Samples are spiked with laboratory grade standards to detect interactive effects between the sample matrix and the analytes being measured. Matrix Spikes are reported as a percent recovery and are prepared for 1 in every 20 samples. Sample batches that contain less than 20 samples may be reported with a Matrix Spike from another batch. The percent recovery is calculated using the formula below. Acceptable recovery limits are 70% to 130%.

$$\frac{\text{(Spike Sample Result – Sample Result) x 100}}{\text{Concentration of Spike Added}}$$

### I. Surrogate Spikes

Samples are spiked with a known concentration of compounds that are chemically related to the analyte being investigated but unlikely to be detected in the environment. The purpose of the Surrogate Spikes is to check the accuracy of the analytical technique. Surrogate Spikes are reported as percent recovery.

### J. Duplicates

Laboratory duplicates measure precision, expressed as Relative Percent Difference. Duplicates are prepared from a single field sample and analysed as two separate extraction procedures in the laboratory. The RPD is calculated using the formula where D1 is the sample concentration and D2 is the duplicate sample concentration:

$$\frac{(D1 - D2) \times 100}{\{(D1 + D2)/2\}}$$

**Engineer's Report**

Cleaned sensor detector (Ultrasonic bath)
Cleaned lamp and lamp housing
Cleaned pump, checked flow rate and stall values
Checked unit settings and configuration
Unit serviced and calibrated.

## Engineer's Report

Replaced broken inlet probe
Cleaned lamp, lamp housing and electrode; checked moisture sensitivity
Cleaned pump assembly, checked flowrate and stall values
Checked unit settings and configuration
Unit serviced and calibrated.
