Subject: Traffic Management Plan for Darlington Point Solar Farm – BESS Stage 2a (SSD-8392)

Dear Mr Huthman,

I refer to your submission requesting approval of the Traffic Management Plan for the Battery Energy Storage System (BESS) Stage 2a (Revision 1.3, 20 June 2022) submitted on behalf of Edify Energy in accordance with Schedule 3, Condition 7 of SSD-8392. I also acknowledge your response to the Department's review comments and requests for additional information.

The Department has reviewed the responses and notes the Traffic Management Plan:

- was prepared in consultation with relevant stakeholders;
- addresses the activities proposed in Stage 2a, including 9 over-dimensional traffic movements; and
- contains the information required by the conditions of approval.

As nominee of the Planning Secretary, I approve the Traffic Management Plan (Revision 1.3, 20 June 2022) under Schedule 3, Condition 7. Please note that the Traffic Management Plan will require revision should additional over-dimensional vehicle movements be required during construction.

You are reminded that if there is any inconsistency between the approved document and the conditions of approval, then the requirements of the conditions of approval prevail.

Please ensure you make the approved plan and this approval letter publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Katie Weekes on (02) 4927 3223.

Yours sincerely

Nicole Brewer
Director
Energy Assessments
As nominee of the Planning Secretary
