Subject: Darlington Point Solar Farm – Operational Environmental Management Plan

Dear Mr Christmas,

I refer to your submission requesting approval of the Operational Environmental Management Plan for the Darlington Point Solar Farm (SSD-8392). I also acknowledge your responses to the Department's review comments and requests for additional information.

The Department notes the Operational Environmental Management Plan is limited in scope to Stage 3, being the operation of the battery energy storage system (BESS).

As nominee of the Planning Secretary, I approve the Operational Environmental Management Plan (Version 12, dated 11 December 2023) for Stage 3 in accordance with Schedule 4, Condition 1.

You are reminded that if there are any inconsistencies between the Operational Environmental Management Plan and the conditions of approval, the conditions prevail.

Please note, in accordance with Schedule 2, Condition 2(a), the Applicant must carry out the development generally in accordance with the EIS, as amended by the Darlington Point Solar Farm Modification Report dated July 2022 and Appendix A, the Noise Impact Assessment prepared by Spectrum Acoustics (May 2021). This letter does not endorse the findings presented in the noise impact assessment for the Darlington Point Solar Farm and Battery Project prepared by Spectrum Acoustics (February 2022).

Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Katie Weekes on (02) 4927 3223.

Yours sincerely

A handwritten signature in black ink, appearing to read "Iwan Davies".
