Subject: Project Name Change

Hi Nestor,

Edify Energy requests approval to amend the project name from Sandy Creek (Muswellbrook) BESS to Bells Mountain BESS.

This request is made to avoid confusion with other similarly named renewable energy projects in the region being progressed by different proponents, and to ensure clarity and consistency across regulatory, stakeholder and public communications.

The proposed name change does not alter the project scope, location, or approval pathway.

Please let us know if any formal documentation or further information is required to action this change.

A handwritten signature in black ink that reads "AJ Smith". The signature is written in a cursive, flowing style.
