Subject: RE: Advice on SEARs [SEC=OFFICIAL]

OFFICIAL

Thank you for the opportunity to comment on the proposed SEARs for the Mount Lambie Wind Farm.

Defence understands that the proposed Mount Lambie Wind Farm will consist of the construction and operation of up to 20 wind turbine generators (WTGs) with a maximum height between 250 and 285 metres above ground level. The subject site is located approximately 12 kilometres south west of Wallerawang, NSW.

Defence is satisfied that it will be formally consulted and that an Aviation Impact Assessment will be created.

Kind regards,

Matthew Williams

Subject: Advice on SEARs

Good afternoon,

The Department of Planning, Housing and Infrastructure has received a request for Secretary's Environmental Assessment Requirements (SEARs) for the Mount Lambie Wind Farm. The proposed development is a State Significant Development under the Environmental Planning and Assessment Act 1979.

Please provide input into the SEARs for the proposal including details of any key issues and assessment requirements by the due date 02/07/2025.

Kind Regards,

Michael Dimitrakopoulos
Student Planning Officer
