BONDO WIND FARM (SSD-86276211) CASA (NO) COMMENTS ON SEARS

CASA has reviewed the Aviation Safety section of the SEARs and the Aviation section the Scoping Report (6.3.5 ii) for the proposed Bondo Wind Farm, east of Tumut.

The Scoping Report advises: up to 149 wind turbine generators of tip height up to 300m.

The Scoping Report advises: A detailed aviation assessment will be prepared as part of the EIS.

CASA has no issues with the Aviation Safety section of the SEARs or the Aviation Section of the Scoping Report and no additional assessment requirements. CASA is prepared to review the EIS / aviation assessment when available.

Yours sincerely

David Alder
