

# JUNIOR SCHOOL TREE STRATEGY

Tree# 42 - Platanus x hybrida

Tree# 48 - Melaleuca liianrifolia

Tree# 51 - Corymbia eximia

Proposed works to the Junior proposes a dense and low-maintenance Lillypilly buffer, views into the outdoor playspace from the road is obstructed. Additionally, the proposal of mature Corymbia Maculata's provide sufficient shade, while continuing the green links and reinstating existing wildlife corridors. the landscape strategy is to revitalise the outdoor character and improve the perimeter planting.

However, consideration of existing trees such as (Tree 54, 55, 57\*) will need to be taken into consideration as the proposed works pose risks to the longevity of the tree growth. A further investigation into the tree quality needs to be undertaken to ensure a consistent canopy cover is maintained. If existing trees need to be removed as a result of the works, the landscape strategy would be to replace these mature trees with an adequate replacement species with the same mass and canopy cover to ensure the contextual flora is maintained. (Refer Substitutionary Planting Palette for species selection)

\* - Refer to ArborSite Tree Assessment Report 17/02/2017

# JUNIOR SCHOOL SUBSTITUTIONARY PLANTING PALETTE

## TREES AND FERNS

Corymbia Maculata 'Little Mac'

Elaeocarpus reticulatus

## SHRUBS & ACCENTS

Syzygium australe

### 17-494 ST ALOYSIUS - JUNIOR SCHOOL PLANT SCHEDULE

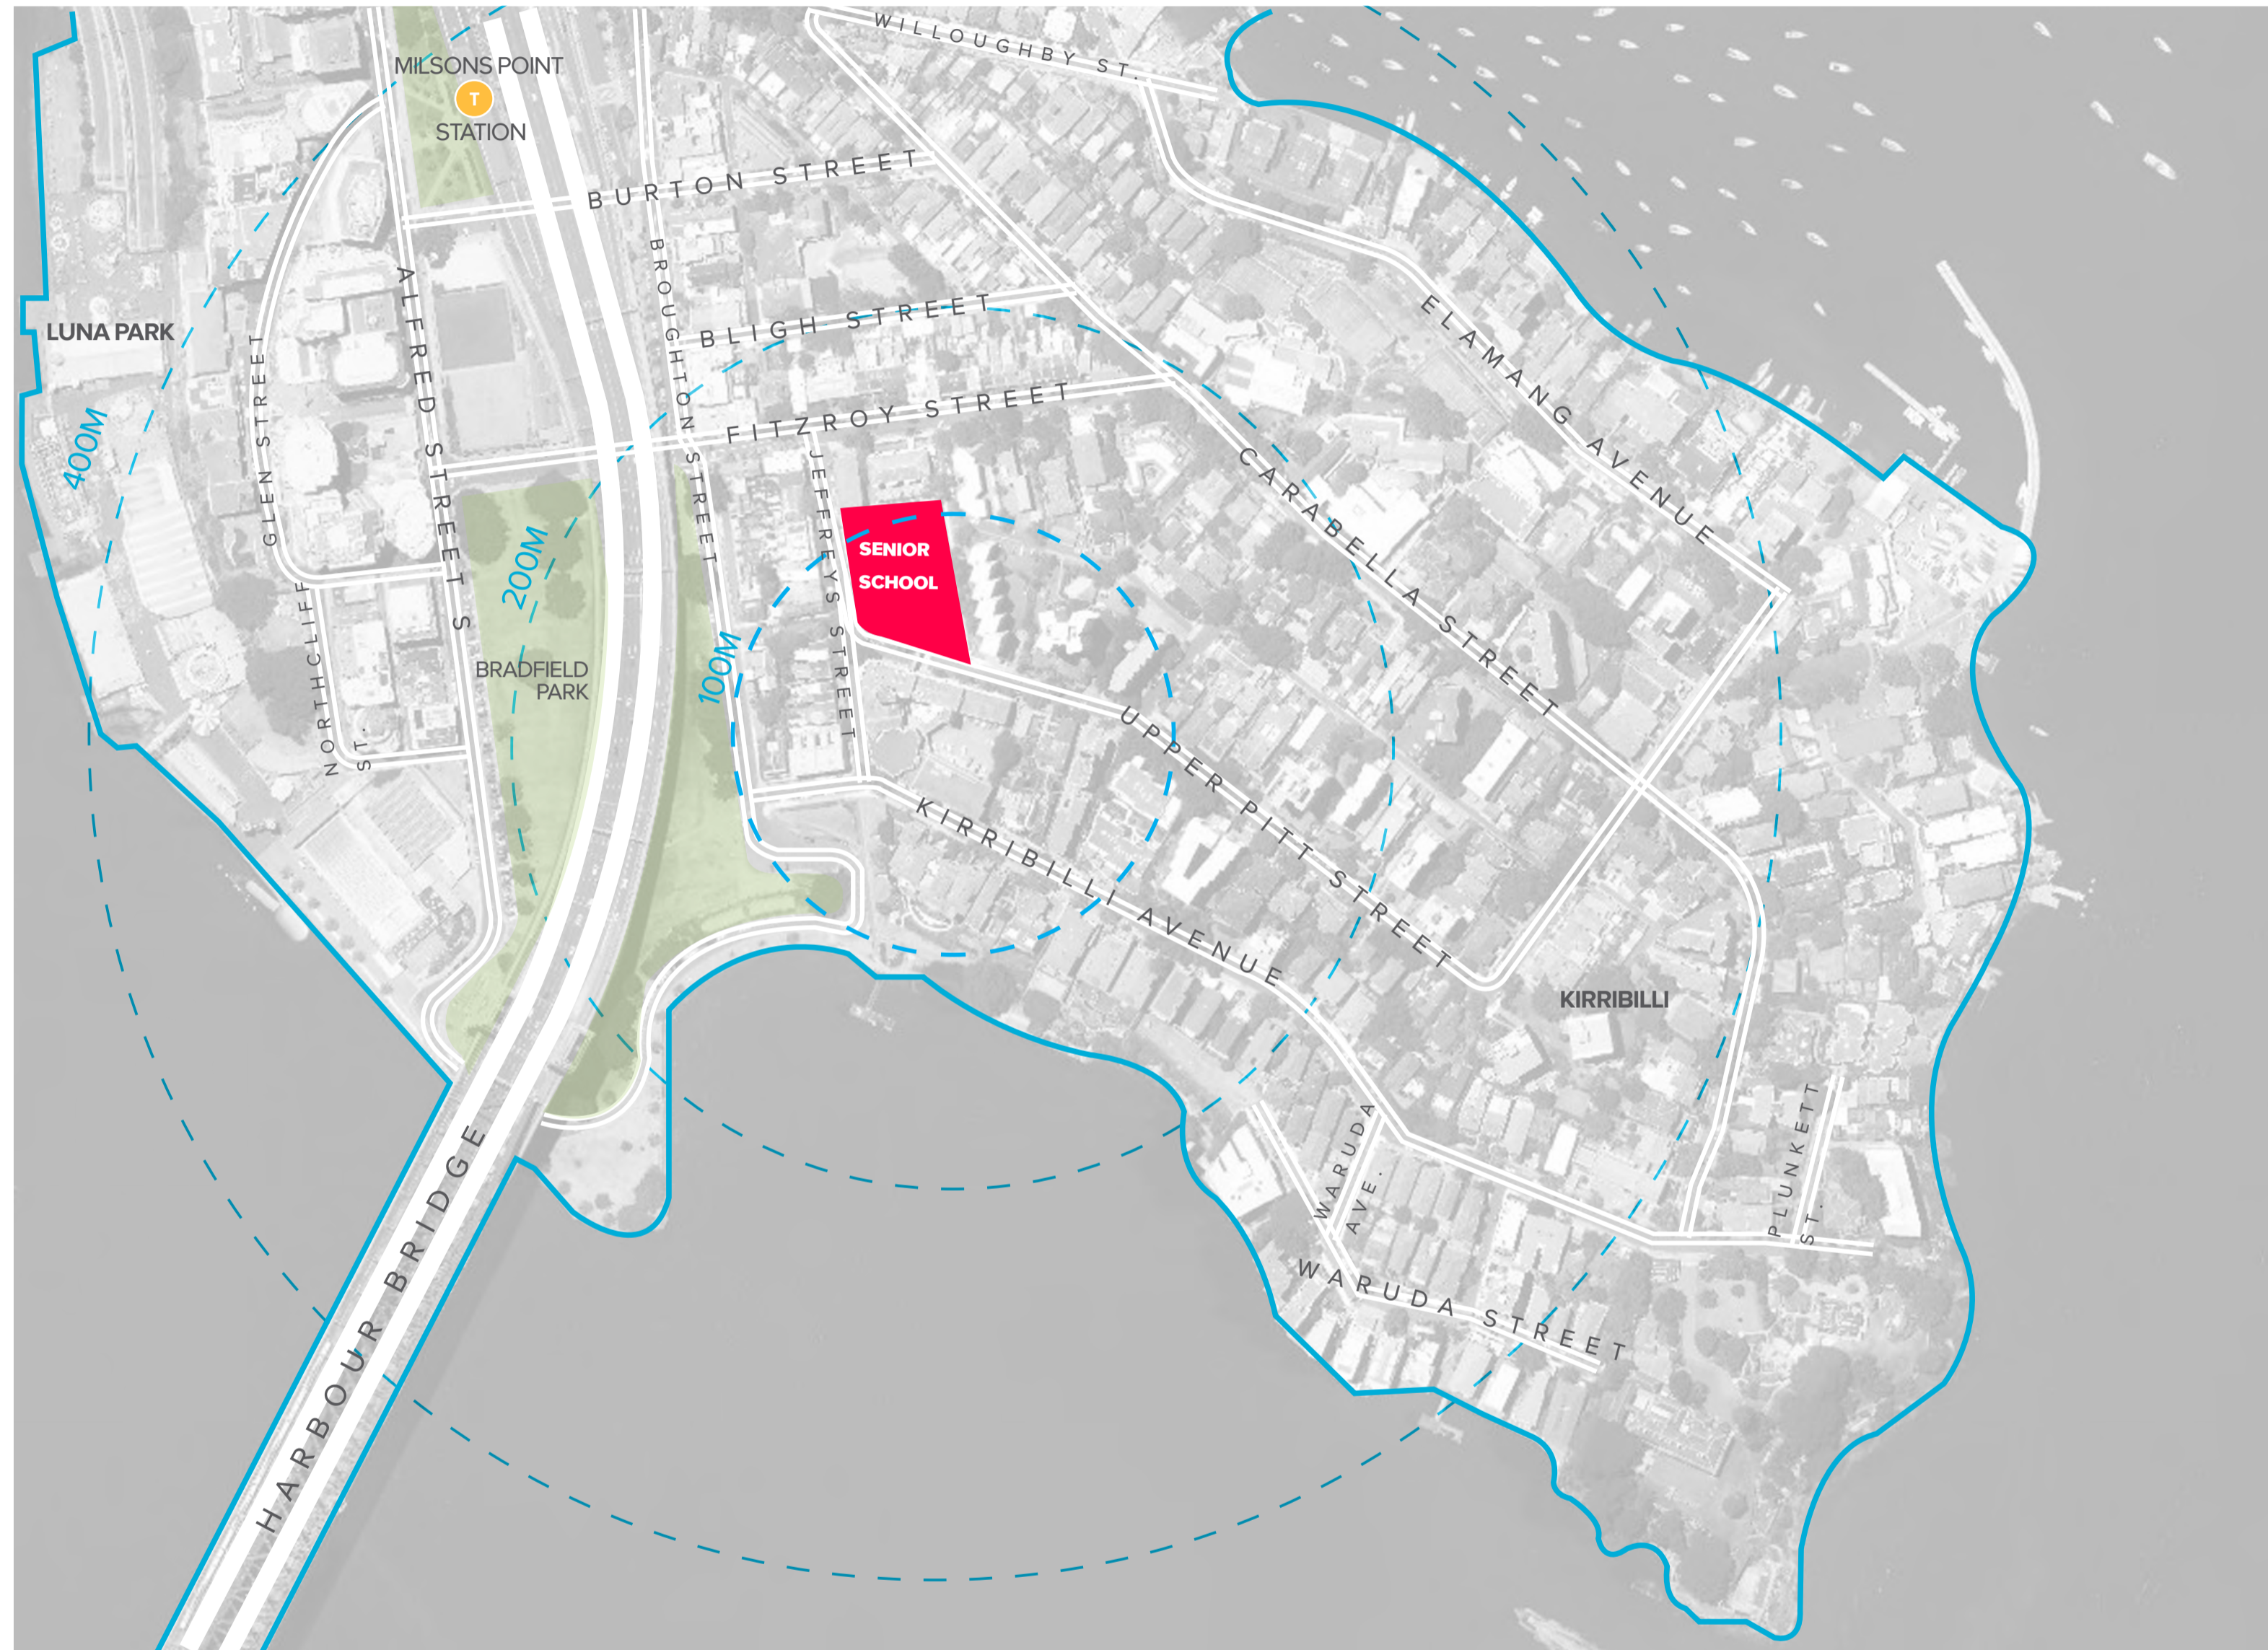

CODE	BOTANIC NAME	COMMON NAME	MATURE SIZE (h x w) (m)	PROPOSED POT SIZE	QUANTITY
<b>TREES &amp; PALMS</b>					
Cm	<i>Corymbia maculata</i>	Spotted Gum	20 x 10	800L	3
Er	<i>Elaeocarpus reticulatus</i>	Blueberry Ash	15 x 10	200L	2
<b>SHRUBS &amp; ACCENTS</b>					
Sa	<i>Syzygium australe</i> 'Aussie Boomer'	Aussie Boomer	1.5x1.5	300mm	83
