Attn: Shiraz Ahmed

27 October 2020

Dear Shiraz

Fairvale High School Redevelopment Project (SSD 8677): Submission of Certified External Walls and Cladding Documentation in accordance with Condition B3

I refer to the Fairvale High School Redevelopment Project approved on the 31 January 2019.

In accordance with condition B3 of the Development Consent, prior to construction the Applicant provided the Certifying Authority with documented evidence that the products and systems proposed for use in the construction of external walls including finishes and claddings such as synthetic or aluminium composite panels comply with the requirements of the BCA. This information was provided to the Certifying Authority on 12/03/20 and accepted on 13/03/20. The supplier for these previously accepted products and systems has since gone into administration and alternative products and systems will need to be used instead.

The alternative cladding materials and systems are:

- Cemintel (changed from 'Fairview Equitone').
- Aodeli 3mm solid aluminium cladding (changed from 'Fairview Vitradual').

In accordance with condition B3 of the Development Consent, the following document has been submitted to the Planning Secretary:

- Copies of the documented evidence given to the Certifying Authority that the products and systems proposed for use in the construction of external walls including finishes and claddings such as synthetic or aluminium composite panels comply with the requirements of the BCA.
- Confirmation of the Certifying Authority's acceptance of the alternative cladding system and materials.

The document has been reviewed internally by Thomas Lennon.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Thomas Lennon', with a stylized, cursive script.
