Dear Natasha

Suntop Solar Farm Subdivision Staging

Canadian Solar are in the process of registering the subdivision for Suntop Solar Farm and it is intended that this be carried out in a two stage process:

Stage 1 – Subdivision of Lot 1 and Lot 3

Stage 2 – Subdivision of Lot 2

Please refer to Appendix 1 for the approved subdivision plan (extracted from the Conditions of Consent).

The reason for the staging is that under the TransGrid Connection Agreements, we are not required to subdivide this land until three months prior to TransGrid reaching Practical Completion on their scope of work. Therefore, to allow TransGrid to complete the detailed design and confirm exactly where within Lot 2 the substation will be located, the intent is to carry out this part of the subdivision at a later date.

Canadian Solar is submitting this staging strategy in accordance with SSD8696 Development Consent, Schedule 4, Condition 3. In addition, the subdivision is in accordance with the Subdivision Condition of SSD8696 Development Consent (Condition 13, Schedule 2).

Kind regards

Chelsea Milles

Project Development Manager
Suntop Solar Farm Pty Ltd
