#### **EXPLANATORY NOTE FOR ITEM 3 COMPLYING DEVELOPMENT**

Please note that Council has updated its Section 10.7(2) Planning Certificate information to reflect the statutory changes introduced by the NSW State Government relating to amendments to the State Environmental Planning Policy (Exempt and Complying Development Codes) 2008, via the Amendment (Commercial and Industrial Development and Other Matters) 2013, and the Environmental Planning and Assessment Regulation 2000, via the Amendment (Complying Development and Fire Safety) 2013, which all take full effect from 22 February 2014.

To assist with the introduction of these SEPP amendments, the NSW Department of Planning and Infrastructure (DPI) has provided a series of information sheets on its web site [www.planning.nsw.gov.au](http://www.planning.nsw.gov.au)

The DPI also issued Circulars PS13-004 and PS13-005 on 23 December 2013 which explains what steps local councils need to undertake to implement the commencement of these new controls.

The DPI have stated the following rationale for the new Amendments:

*"The amending Regulation makes important changes to the lodgement and determination of applications for a complying development certificate (CDC). This includes new requirements to provide advice and notification of complying development to neighbours. There are also additional requirements for information to be lodged with an application for a CDC and for conditions to be imposed on a CDC approval.*

*The SEPP has been amended to include new complying development codes, development standards and other requirements. These amendments will require changes to the information provided in section 10.7 planning certificates. The new development types also include a number of prerequisites for certain proposals to be complying development. These and other related matters are specified in the Regulation."*

It is strongly suggested that you review this information before proceeding with the lodgement of a Complying Development Certificate application to either Council or a private certifier.

For any further clarification of these matters, please contact Council's Development Assessment or Building Units.
