Subject: Extension Request for Retirement of Offset Credits (SSD-8777)

Dear Mr. Slattery,

I refer to your request (dated 5 February 2025) for an extension of time to retire the biodiversity credits under Condition 13, Schedule 3 of consent SSD-8777.

The Department notes:

- Maryvale Solar and Energy Storage Project have been working with NSW Department of Environment and Heritage's Credit Supply Fund to retire the credits since July 2024;
- The date the credits would be available for purchase has moved from September 2024 to October-November 2024 to April 2025;
- Maryvale Solar and Energy Storage Project would like to commence public road upgrade works (as specified in SSD-877-Mod 2 Appendix 6) in mid-March 2025; and
- The biodiversity credits required for the Maryvale Solar and Energy Storage Project are not located within the public road upgrade works.

Accordingly, the Secretary agrees to Maryvale Solar and Energy Storage Project to commence and undertake public road upgrade works (as specified in Appendix 6, SSD-8777-Mod 2) prior to the retirement of the required biodiversity credits under Condition 13, Schedule 3.

Maryvale Solar and Energy Storage Project are required to retire the biodiversity credits under Condition 13, Schedule 3 prior to the commencement of construction.

If you wish to discuss the matter further, please contact Scotney Moore, on 02 9274 6342.

Yours sincerely

Iwan Davies
Director
Energy Assessments

As nominee of the Secretary
