

I have reviewed the documentation associated with SSD-8812 Modification 3 and can advise as follows:

Design Changes

- No objection is made to the design changes to the loading bay and layback, adjustments to pram ramp and boundary fencing.

Modifications to Conditions E36 to E40 to remove indemnity requirements

- The SEE submitted by the applicant states that the proposed changes to the conditions have been discussed with Council and agreed upon prior to the lodgement of the modification report. Unfortunately I have not been able to find any correspondence that confirms this. I am currently following up with Council's Senior Property Officer, to ascertain whether this is agreed upon, but I would ask that you grant us until COB on Tuesday 7 December to confirm this.

Please don't hesitate to contact me if you have any questions on the above.

Regards,

Max Moratelli
