Dear [REDACTED]

Thank you for your email below requesting comment from the Civil Aviation Safety Authority (CASA) on the Sydney Metro Victoria Cross OSD - Stage 2 (SSD-10294) and Modification 1 - Amendments to Building Envelope (SSD-8874-Mod-1).

CASA has reviewed the Response to Submissions and our advice has not changed. CASA assessed the Victoria Cross Over Station Development proposal under the Airspace Regulations at a maximum height of 230m Australian High Datum in December 2017. A copy of the CASA assessment is attached along with the subsequent approval from the Department of Infrastructure, Transport, Regional Development and Communications.

I trust this information is of assistance.

Yours sincerely
