Liddell Battery and Bayswater Ancillary Works – Consultation Waiver

Dear Mr. Taylor

I refer to your letter dated 31 July 2026 requesting that the following management plans be updated without consultation:

- Biodiversity Management Plan
- Cultural Heritage Management Plan

I note the project seeks to waive consultation in accordance with Conditions B8(b) and B22(b) of Schedule 2 of the development consent.

The Department understands the proposed updates are administrative in nature, as the project has completed all ground-disturbing works during the construction phase and no operational impacts will occur outside the approved development area.

Accordingly, as nominee of the Planning Secretary, I approve the request to waive consultation requirements for the above management plans.

If you wish to discuss the matter further, please contact Charissa Pillay on 02 99955944.

Yours sincerely

Jack Turner
Team Leader
Resource Assessments

As nominee of the Planning Secretary
