Commencement Notification for SSD8889679 – Stage 3 MA1B Shorting Project

AGL Macquarie (AGLM) holds SSD8889679 for the Liddell Decoupling and Bayswater Ancillary Works.

AGL Macquarie (AGLM) are notifying the Department of Planning and Environment of the intended commencement of Stage 3 of the MA1B Shorting Project, as outlined under Schedule 2 Condition A8 of SSD8889679, with work scheduled to begin on 11 November 2024.

Per Condition A8 of our consent, AGLM is required to notify the Department at least two weeks prior to the start of construction activities. However, due to project logistics and operational timelines, AGLM has found it necessary to bring certain preparatory work forward, prompting our request for an earlier-than-required notification. The advanced start will help ensure the alignment of resources, compliance with environmental requirements, and the smooth progression of subsequent project phases.

We respectfully request that the Department consider our early commencement notice for the intended start date of 11 November 2024.

Please contact me on Jmcmamara2@agl.com.au or 0498 730 868 if you have any further questions.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'J. McNamara', with a long, sweeping horizontal line extending to the right.
