26 November 2024

Dear Sir/Madam

Notification of Commencement of Pre-Construction works – SSD 8889679 Liddell Battery and Bayswater Ancillary Works

In accordance with condition A8 Notification of Commencement of SSD-8889679 Liddell Battery and Bayswater Ancillary Works (BAW), AGL Macquarie PTY LTD hereby advises the NSW Department of Planning, Housing and Infrastructure (DPHI) that pre-construction activities are scheduled to commence that are associated with the BAW, specifically the brine concentrator return water pipeline on **Tuesday 10 December 2024**.

Please note no construction works associated with the brine concentrator pipeline are commencing at this time. The works are consistent with the definition of pre-construction activities provided in the SSD 8889679 consent, and include fencing, investigative excavations, and adjustments to services.

We trust this letter meets the requirement to provide DPHI with two weeks' notice prior to commencement.

Noting the number of projects that are included as part of the Bayswater Ancillary Works (BAW) and their generally small scale, AGL Macquarie request that further notification of commencement is only required in accordance with A8(e) when these projects are proposed to commence construction.

Please contact me either myself via email mnettlefold@agl.com.au or the project manager Tim Bellemore via email bellemore@agl.com.au should you have any questions or require further clarification.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'mnettlefold', with a stylized flourish at the end.
