

Development consent

Section 4.38 of the *Environmental Planning and Assessment Act 1979*

As delegate of the Minister for Planning and Public Spaces under delegation executed on 9 March 2020, I approve the Development Application referred to in Schedule 1, subject to the conditions specified in Schedule 2.

These conditions are required to:

- prevent, minimise, or offset adverse environmental impacts;
- set standards and performance measures for acceptable environmental performance;
- require regular monitoring and reporting; and
- provide for the ongoing environmental management of the development.

Anthea Sargeant
Executive Director
Key Sites and Regional Assessments

Sydney

26 March 2021

The Department has prepared a consolidated version of the consent which is intended to include all modifications to the original determination instrument.

The consolidated version of the consent has been prepared by the Department with all due care. This consolidated version is intended to aid the consent holder by combining all consents relating to the original determination instrument but it does not relieve a consent holder of its obligation to be aware of and fully comply with all consent obligations as they are set out in the legal instruments, including the original determination instrument and all subsequent modification instruments.

Details confirming compliance must be submitted to the Certifying Authority prior to the issue of any Construction Certificate.

Applicability of Guidelines

- B2. The GFA of the building must not exceed 44,561 m². Details confirming compliance must be submitted to the Certifying Authority demonstrating compliance with the condition prior to the issue of any Construction Certificate.

BASIX Certification

- B3. The development must be implemented and all BASIX commitments thereafter maintained in accordance with BASIX Certificate No. 1117574M_02 and an updated certificate issued if amendments are made. The BASIX certificate must be submitted to the Certifying Authority with all commitments clearly shown on the Construction Certificate plans.

Ecologically Sustainable Development (ESD)

- B4. The project must incorporate all design, operation and construction measures as identified in the report titled 'One Sydney Harbour Barangaroo Residential Building R4B Barangaroo South v06' prepared by Lendlease and dated 11 November 2020. Details demonstrating compliance are to be submitted to the Certifier prior to the issue of the relevant Construction Certificate.

Number of Car Parking Spaces

- B5. The maximum number of car parking spaces to be provided for the development shall comply with the table below. Details confirming the parking numbers must be submitted to the Certifying Authority prior to the issue of the relevant Construction Certificate.

Car parking allocation	Number
Residential	331
Retail	0

Number of Bicycle Parking Spaces

- B6. The minimum number of bicycle parking spaces to be provided for the development shall comply with the table below. Details confirming the parking numbers must be submitted to the Certifying Authority prior to the issue of the relevant Construction Certificate.

Bicycle parking allocation	Number
Residential (one space per unit to be provided within individual unit basement storage areas)	322
Retail (within the basement)	1

Wind

- B7. Prior to the issue of the Construction Certificate for external elevations or commencement of external landscape works (whichever is the sooner), the Applicant shall submit evidence to the Certifier demonstrating that the design of the development has incorporated:
- (a) the wind mitigation measures contained with the document titled 'Pedestrian Wind Environment Statement Building R4B, Barangaroo South' Issue 6, prepared by Windtech Consultants and dated 12 November 2020, or
 - (b) alternative wind mitigation measures endorsed by Wintech Consultants (or an alternative and suitably qualified wind consultant) that have been demonstrated to achieve the same wind mitigation outcomes as predicted by the mitigation measures required in accordance with **Condition B7(a)**.

PART C PRIOR TO COMMENCEMENT OF WORKS

Noise and Vibration Management Sub-Plan

- C1. Prior to the commencement of works, an updated **Noise and Vibration Management Sub-Plan** for Barangaroo South prepared by a suitably qualified person shall be submitted to the EPA for review and submitted to the PCA. The Sub-Plan must be consistent with and adopt all recommendations of the document titled '*One Sydney Harbour Residential Building R4B Construction & Operational Noise Report Version 1*' prepared by Wilkinson Murray dated 2 February 2021) and comply with Environment Protection Licence number 13336, where relevant. The Noise and Vibration Management Sub-Plan must establish Noise Management Levels for the closest residential properties, including the provision of reasonable and feasible noise mitigation measures. A copy must be provided to the Secretary.

FOR INFORMATION

PART D PRIOR TO OCCUPATION OR COMMENCEMENT OF USE

GFA and Height Certification

- D1. A Registered Surveyor is to certify that the GFA of the building does not exceed 44,561 m² and the height of the building does not exceed RL 233.485 AHD. Details shall be provided to the PCA demonstrating compliance with this condition prior to the issue of any Occupation Certificate.

Environmental Performance

- D2. Prior to the issue of the relevant Occupation Certificate, the Applicant shall implement the commitments outlined in BASIX Certificate No. 1117574M_02.

Wind mitigation

- D3. Prior the occupation and commencement of the use of the development the wind management and mitigation measures approved under Condition B7 must be installed.

FOR INFORMATION

APPENDIX 2 - ADVISORY NOTES

General

AN1. All licences, permits, approvals and consents as required by law must be obtained and maintained as required for the development. No condition of this consent removes any obligation to obtain, renew or comply with such licences, permits, approvals and consents.

Long Service Levy

AN2. For work costing \$25,000 or more, a Long Service Levy must be paid. For further information please contact the Long Service Payments Corporation Helpline on 131 441.

Legal Notices

AN3. Any advice or notice to the consent authority must be served on the Planning Secretary.

Access for People with Disabilities

AN4. The works that are the subject of this application must be designed and constructed to provide access and facilities for people with a disability in accordance with the BCA. Prior to the commencement of construction, the Certifier must ensure that evidence of compliance with this condition from an appropriately qualified person is provided and that the requirements are referenced on any certified plans.

AN5. Water, electricity and gas are to comply with sections 4.1.3 and 4.2.7 of Planning for Bush Fire Protection 2006.

Utilities and Services

AN6. Prior to the construction of any utility works associated with the development, the Applicant must obtain relevant approvals from service providers.

AN7. Prior to the commencement of construction written advice must be obtained from the electricity supply authority, an approved telecommunications carrier and an approved gas carrier (where relevant) stating that satisfactory arrangements have been made to ensure provisions of adequate services.

Road Design and Traffic Facilities

AN8. All roads and traffic facilities must be designed to meet the requirements of Council or TfNSW (RMS) (whichever is applicable). The necessary permits and approvals from the relevant road authority must be obtained prior to the commencement of road or pavement construction works.

Road Occupancy Licence

AN9. A Road Occupancy Licence must be obtained from the relevant road authority for any works that impact on traffic flows during construction activities.

SafeWork Requirements

AN10. To protect the safety of work personnel and the public, the work site must be adequately secured to prevent access by unauthorised personnel, and work must be conducted at all times in accordance with relevant SafeWork requirements.

Hoarding Requirements

AN11. The Applicant must submit a hoarding application to Council for the installation of any hoardings over Council footways or road reserve.

Handling of Asbestos

AN12. The Applicant must consult with SafeWork NSW concerning the handling of any asbestos waste that may be encountered during construction. The requirements of the Protection of the Environment Operations (Waste) Regulation 2014 with particular reference to Part 7 – 'Transportation and management of asbestos waste' must also be complied with.

Fire Safety Certificate

AN13. The owner must submit to Council an Annual Fire Safety Statement, each 12 months after the final Safety Certificate is issued. The certificate must be on, or to the effect of, Council's Fire Safety Statement.

Survey Infrastructure

AN14. Under Section 24 of the Surveying and Spatial Information Act 2002, it is an offence to remove, damage, destroy, displace, obliterate or deface any survey mark unless authorised to do so by the Surveyor-General. Accordingly, the applicant must, where possible, ensure the preservation of existing survey infrastructure undisturbed and in its original state or else provide evidence of the Surveyor-General's authorisation to remove or replace marks.
