To whom it may concern,

**TREE IMPACT STATEMENT for STEVENSON LIBRARY:
29-53 Victoria Road, Bellevue Hill NSW**

This letter has been commissioned by Impact Group to determine if any trees will be affected by the proposed Stevenson Library upgrade. The following documents were cited in preparation of this statement:

- Plans, Elevations and Sections, Dwg No. SSD1.02/17-001 to SSD1.02/17-309, by JCA Architects dated October 2017.

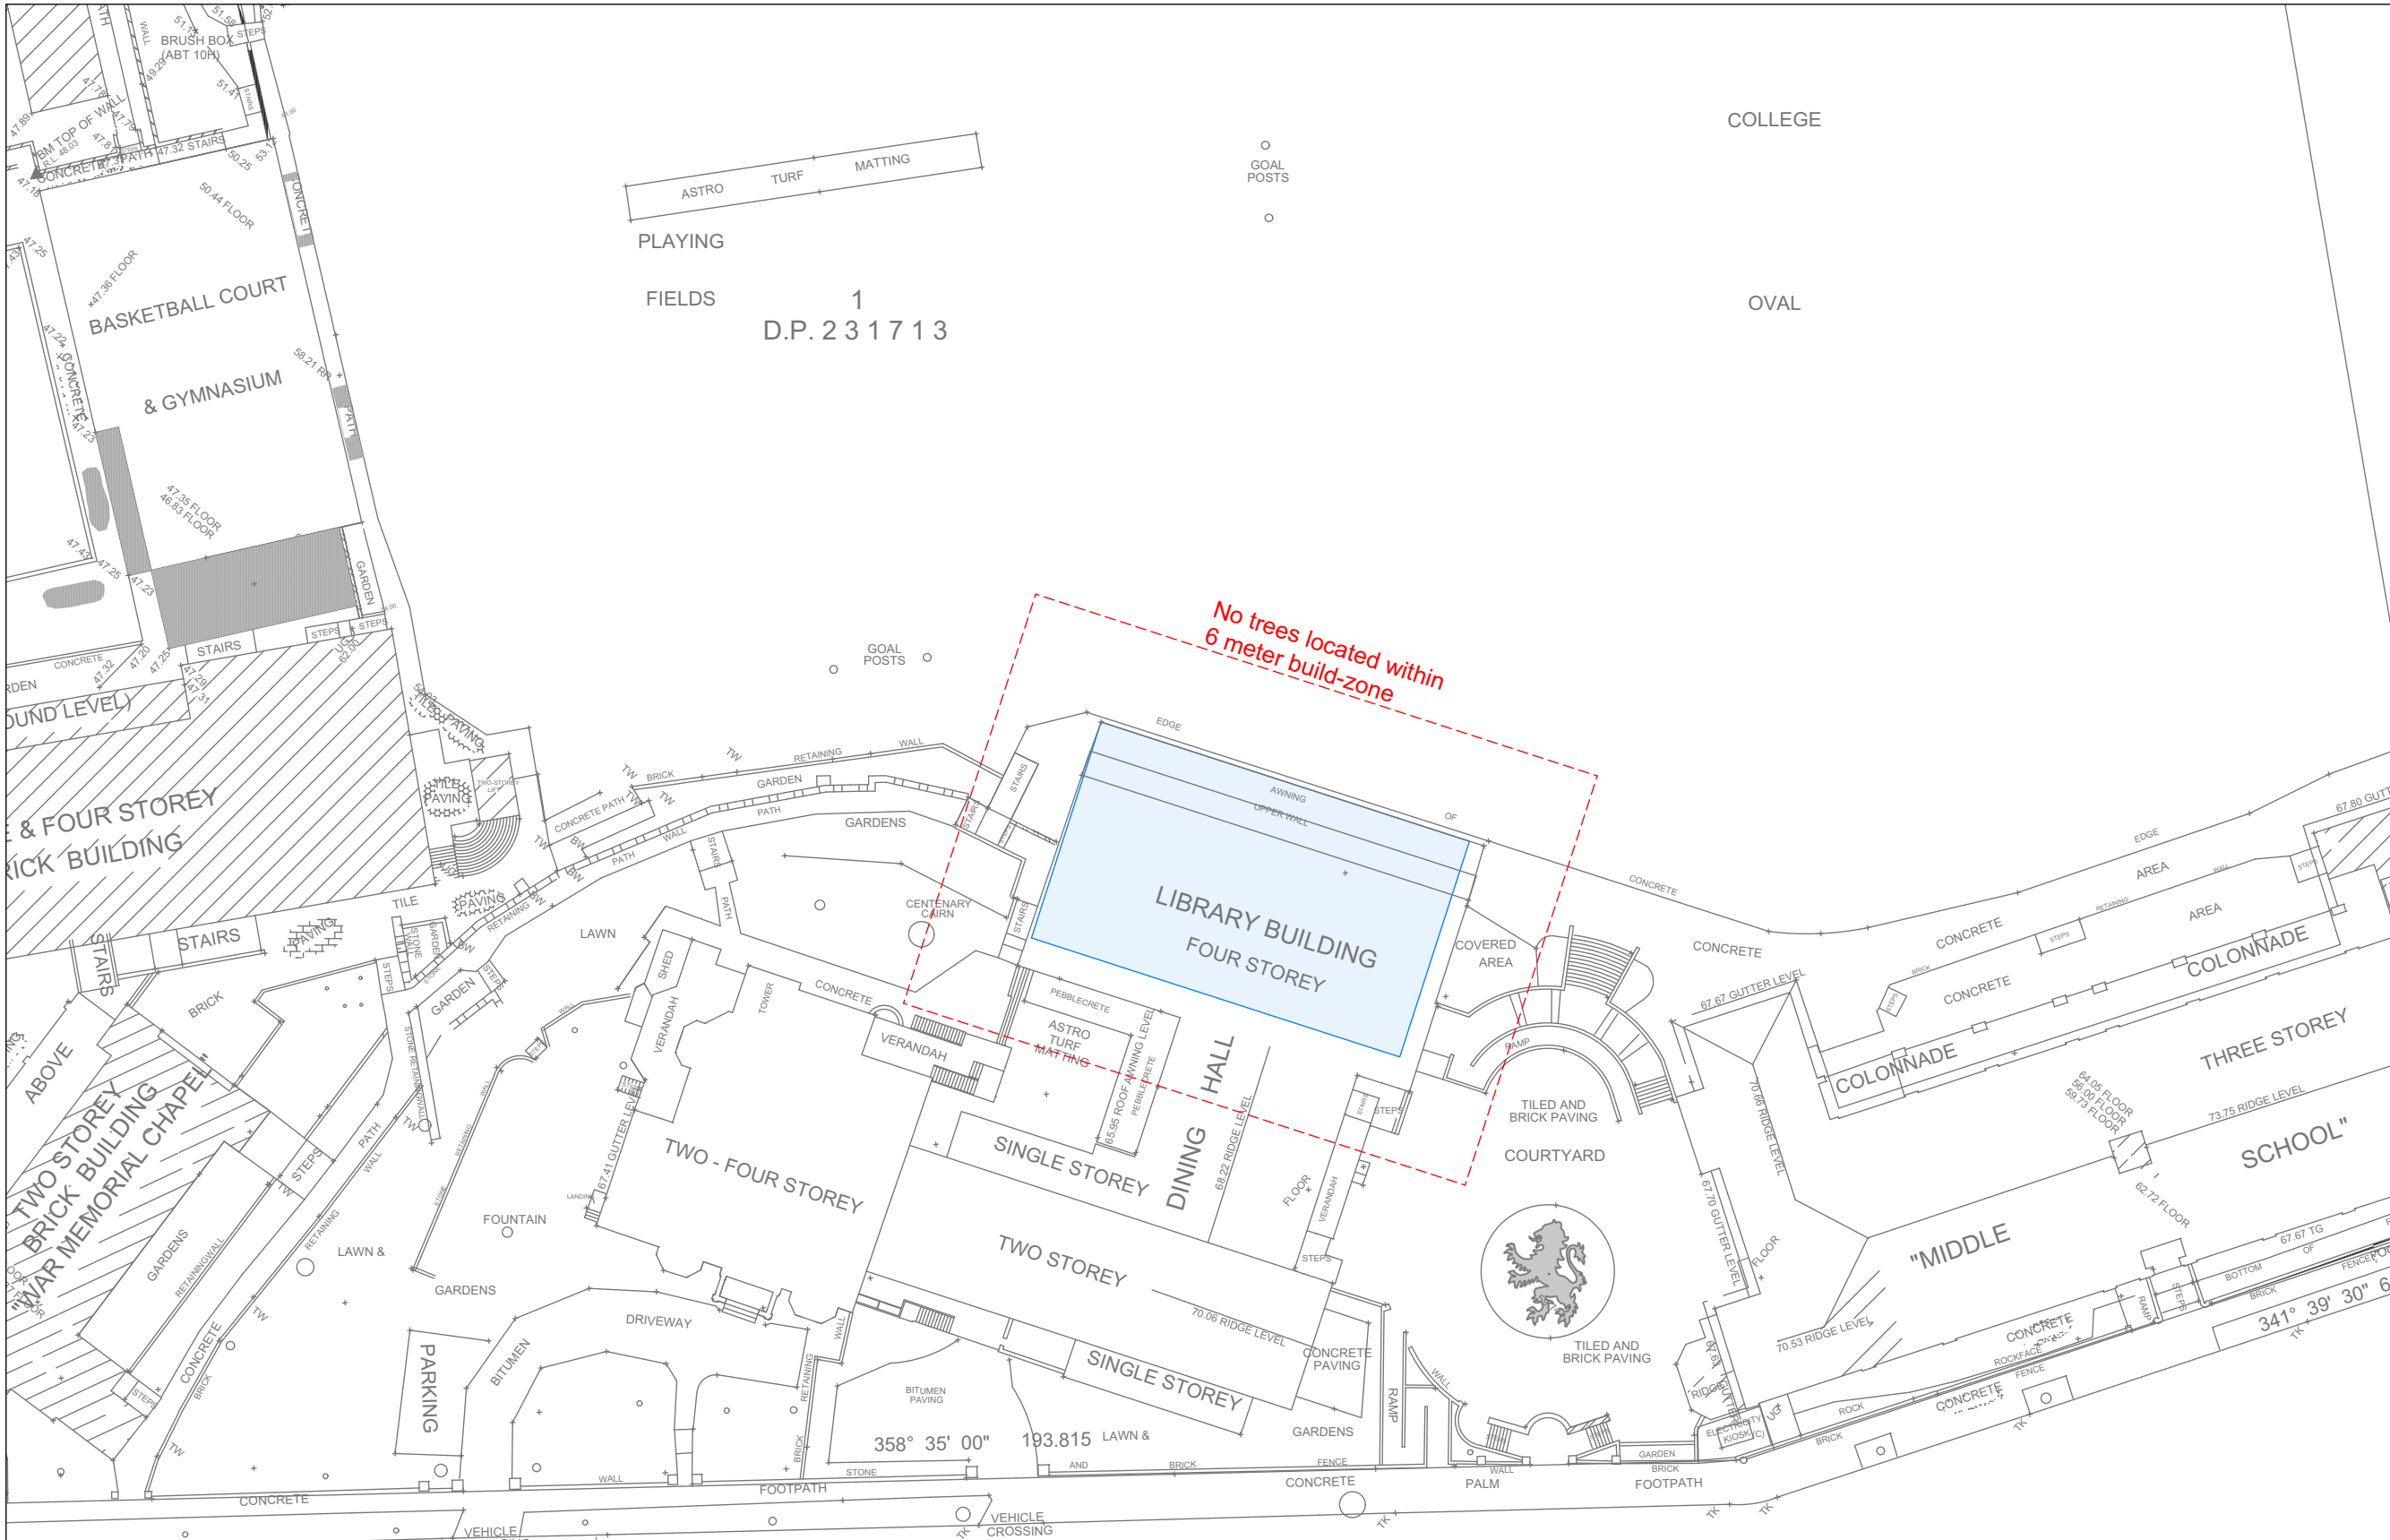

Based on findings, there are no trees within the general vicinity of the proposed library upgrade works. Providing site access is contained to existing hardstand areas, it is expected that no impacts will occur to trees within the site area. Refer to Tree Protection Plan attached which clearly shows no trees within 6m of the proposed upgrade.

For further information, please contact Naturally Trees.

Yours sincerely
