Attention: Natasha Homsey

22 July 2022

Dear Ms Homsey

Extension request – Burrendong Wind Farm (SSD 8950984)

I refer to your request dated 13 July 2022 To the Environment Protection Authority ('EPA') seeking comment on the extension of the Burrendaong Wind Farm (SSD 8950984) project by Burrendong Wind Farm Pty Ltd.

I also refer to the EPA's letter dated 1 October 2020 regarding the Secretary's Environmental Assessment Requirements ('SEARS') for the project.

The EPA understand that the project has been assessment by the Department of Planning, Industry and Environment under Part 4 of the *Environmental Planning and Assessment Act 1979* as a State Significant Development.

The EPA has undertaken a review of the proposed construction, operation and decommissioning of up to 105 wind turbine generators and associated ancillary infrastructure, with a total capacity of around 650 MW and does not have any further comments or feedback on the project.

If you have any questions about this matter, please contact Brooke Emerton on (02) 6883 5368 or by email at info@epa.nsw.gov.au.

Yours sincerely
