**Subject: Burrendong Wind Farm (SSD-8950984) - Amendment of Application**

Dear Mr Wilson

I refer to your request to amend the development application and the Amendment Report for the proposed Burrendong Wind Farm (SSD-8950984) which was submitted on 14 April 2026 in accordance with the *Environmental Planning and Assessment Regulation 2021* (the Regulation).

The Amendment Report has requested the following changes:

- removal of the northern transmission line option;
- amendments to the transmission line alignment;
- refinement of turbine and access track locations;
- amendments to site access and road upgrades;
- inclusion of a temporary workers accommodation facility; and
- reduction in disturbance footprint.

The Department has carefully considered the information provided and notes that the proposed amendments are in response to Government agency advice and submissions on the project, and aim to reduce the impacts of the project as a whole.

Accordingly, as delegate of the Independent Planning Commission, I agree to the amendment of the development application for the project as detailed in the Amendment Report in accordance with Section 38 of the Regulation.
