Dear Ms Muir

Subject: Condition C8 and C9 of Development Consent for the Coffs Harbour Hospital Expansion (SSD 8981) – Variation to Construction Hours

I refer to your correspondence dated 17 December 2019, regarding varying the approved construction hours for the abovementioned project.

The Department has reviewed your request to extend the construction hours (as allowed by condition C9) to facilitate the required delivery and setup of a tower crane on the development site.

The Department accepts the request to vary construction hours subject to the following:

- (a) work must not be undertaken outside the hours of work identified in condition C8 of the development consent, except for works associated with the setup of a tower crane on Wednesday 8 January and Thursday 9 January 2020, between 6am and 6pm;
- (b) written notice must be provided to any surrounding sensitive receivers and placed on site before work occurs outside the normal construction hours identified in condition C8. The written notice must:
 - (i) identify what works are to occur outside normal construction hours;
 - (ii) nominate the timeframe the works are likely to occur;
 - (iii) be provided and installed on site 48 hours before any work occurs outside normal construction hours;
 - (iv) reissued 48 hours before any work occurs outside normal construction hours if the wet weather requires alternative weekends from those notified; and
 - (v) provide a telephone contact number of the construction site manager during the extended construction hours;
- (c) a record of any complaints made regarding works undertaken during the extended construction hours must be provided to the Department within 24 hours of the complaint;
- (d) in the event that any complaint is received, appropriate mitigation measures are to be identified, and the Department and the complainant are to be informed of the measures that will be implemented to address the complaint. Should any further complaints be received regarding works in the extended construction hours, the variation to the works hours may be revoked by the Department and the construction hours would revert to those identified in condition C8; and
- (e) all work is to be undertaken in accordance with conditions B5 and B8 of the development consent, the Construction Environmental Management Plan and Construction Noise and Vibration Management Sub-Plan.

If any the above dates need to be modified due to unforeseen circumstances or adverse weather conditions, the works may be undertaken on an alternate weekday, subject to notifying the Department and sensitive receivers of the change in dates and explanation for the change.

Should you have any enquiries regarding the above matter, please contact Ingrid Berzins on 9373 2885 or via email to ingrid.berzins@planning.nsw.gov.au.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'KH', with a long horizontal flourish extending to the right.
