23/06/2021

Dear Mrs Dunlop,

**Catherine McAuley Catholic College (SSD 8989)
Acknowledgment receipt of Quarterly Review of Stage 1 OTAMP- Condition E10**

I refer to the Department's approval letter dated 21 January 2021 concerning Stage 1 Operational Transport and Access Management Plan (OTAMP) requiring a quarterly review of Stage 1 OTAMP.

I note that the shuttle bus, bus marshal, pedestrian and traffic management controls identified in the approved OTAMP have been implemented by the Applicant. I also note that so far there has been no concerns or issues raised by the staff or students relating to the current OTAMP or the safe use of the current road infrastructure

Accordingly, I acknowledge receipt of the quarterly review of Stage 1 OTAMP in line with the Department's' approval letter dated 21 January 2021 issued under condition E10 of SSD 8989.

You are advised to continue submitting a quarterly report to the Department outlining effectiveness of the interim access arrangement including any mitigation measures to address identified safety concerns until access from the Medowie Rd becomes operational.

If you have any questions, or wish to discuss this matter further, please do not hesitate to contact Matt Wood at matthew.wood@dpie.nsw.gov.au.

Yours sincerely
