Attention: Robert Denton

SCEGGS Darlinghurst – Wilkinson House

Structural Design Certificate

Dear Robert,

We will prepare the structural design of Wilkinson House (215 Forbes St, Darlinghurst NSW 2010) in accordance with the following Australian Standards:

AS 3600	Concrete Structures
AS 4100	Steel Structures
AS1720	Timber Structures
AS3700	Masonry Structures

And the structure will be sufficient to carry the relevant loads specified in the project brief and in;

AS 1170.0	Structural design actions – General principles
AS 1170.1	Structural design actions – Permanent, imposed and other actions
AS 1170.2	Structural design actions – Wind actions
AS 1170.4	Structural design actions – Earthquake actions in Australia

The existing building will be checked to ensure the structure has the capacity for the above loads. Where existing drawings are not available, site investigations will be undertaken to confirm the capacity of the existing structure.

Yours faithfully

TAYLOR THOMSON WHITTING (NSW) PTY LTD

BARRY YOUNG

Director
