

NEST BOXES

Nest Boxes are specified as per Hollow Log Homes - to be purchased to compensate for the loss of any hollows. As per advice from Eco Logical

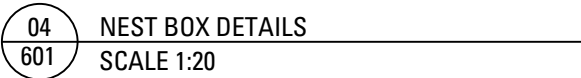

'Small' box (targeted to sugar and squirrel gliders, tree creepers and scaly breasted lorikeets)

'Medium' box (targeted to rosellas and lorikeets and nocturnal animals)

'Large' box (bush-tail and ringtail possums, Woodducks and parrots)

NOTES - AS PER ADVICE FROM ECO LOGICAL

It is our recommendation that a pre-clearance survey be undertaken by an ecologist prior to clearing to confirm the number of habitat trees within the Stage 1 footprint and the size of the hollows onsite so that the appropriate nest box sizes can be purchased and installed.
