**Subject: Tomingley Gold Extension Project (SSD-9176045) – Stage 1a Management Plans**

Dear Mr Pritchard

I refer to your letter dated 31 May 2023, requesting approval to stage and consolidate management plans for the above project. I also acknowledge your response to the Department's request for additional information dated 27 June 2023.

I note that you have requested to submit one consolidated management plan to address activities occurring within the Stage 1a area. These activities include the construction and operation of the:

- temporary pastefill plant;
- borrow pits to the east of the existing Newell Highway (within the SAR South and Central Pits);
- haul and services road, pipelines, and internal access tracks;
- temporary intersection with Kyalite Road;
- amenity bund;
- administration area;
- water storage dam;
- clean water diversion bund and exclusion bund;
- Kyalite Road realignment (TGO-owned land east of the existing Newell Highway); and
- 22kV powerline relocation.

The consolidated management plan will address the requirements of the following individual management plans, specific to the above Stage 1a activities:

- Noise Management Plan;
- Air Quality and Greenhouse Gas Management Plan;
- Water Management Plan;
- Biodiversity Management Plan;

- Traffic Management Plan;
- Aboriginal Cultural Heritage Management Plan; and
- Newell Highway Realignment Construction Environment Management Plan.

Following careful consideration, the Secretary has approved your request to stage and consolidate the above listed plans into the SAR Mine Site Construction Environmental Management Plan for Stage 1a of the development.

You are reminded that this approval only relates to the Stage 1a area and any further requests to stage management plans, or to undertake development in subsequent stages, must be approved by the Secretary.

If you wish to discuss the matter further, please contact Brittany Golding on 02 9995 5742.

Yours sincerely
