RE: Solar Study Validation of Imagery – Stage 2 North Site Over Station Development State Significant Development Application

We confirm that the imagery contained in the solar shadow analysis study prepared by Vitual Ideas (dated 8 August 2018) for the Stage 2 Over Station Development (OSD) on the North Site has been verified and validated separately based on the City of Sydney digital cadastre and model, and the three dimensional model provided by JPW. The building tested complies with the Martin Place Sun Access Plane of the *Sydney Local Environment Plan 2012*, and we agree with the results contained in the study.

I trust that this information is sufficient, but please contact me on 02 8399 0222 should you have any further questions.

Yours sincerely,

Grant Kolln
