RAIN GARDENS

A planted rain garden and swale will run along the edge of the playground area collecting rain run off from running into the building area. A series of stormwater pits will connect into the rain gardens. Timber bridges will provide access across the rain gardens. The rain gardens will feature local native plant species.

TIMBER PLATFORM

A raised timber deck will provide seating and performance opportunities. The platform can be used as an informal stage to the amphitheater seating area.

LEGEND

-  EXISTING TREES TO BE RETAINED
-  EXISTING TREES TO BE REMOVED
-  PROPOSED TREES
-  PROPOSED SCREEN SHRUBS/HEDGES
-  MASS PLANTING AREAS
-  NEW PAVING. REFER TO ARCHITECTS DETAILS.
-  SYNTHETIC GRASS
-  PROPOSED DECKING
-  SANDSTONE SPALLS SWALE

KENT ROAD

ENTRY AREA

Entry gardens and large trees on either side of the main entrances, highlight the entry area.

SEATING

Raised planters with gardens and shade trees to add interest into the quadrangle area. Sections of the planters will feature timber bench seating built in creating sitting areas.

RAIN GARDEN

A rain garden outside the existing Block I will capture any run off rain water from the new quadrangle area. New trees will also provide shade to the existing classrooms. A timber bridges, including one disabled accessible bridge, and new stairs will link the two areas.

REVISIONS
