Subject: Waterloo Design Guideline

Hi Annie,

I refer to our discussions yesterday and on Thursday 31 October about the tree canopy targets in the Waterloo Design Guideline.

We have undertaken further investigations and can commit to including the following targets in the Design Guideline:

- 50% street canopy cover
- 23% overall tree canopy cover

These targets are consistent with the recommendations of the SSP Urban Forest Strategy.

The corresponding pages in the Design Guideline have been updated and are attached.

Please don't hesitate to contact me if you require any further information.

Regards

Simon Bennett
