P1302 Bonshaw access clarification

ERM

Attn: Lachlan Giles

Dear Lachlan,

Re: Clarification of site access on Bruxner Highway – Bonshaw Solar Farm

Our traffic assessment for the Bonshaw Solar Farm provides advice on the proposed access upgrade on the Bruxner Highway, however the details of the upgrade provide some potential confusion due to different names for the upgrade work. I would clarify that the upgrade for the site access provides for the following:

- Provision of an AUL (S), which is a left turn slip lane into the site access
- Provision of a BAR type upgrade, which allows for shoulder widening for the eastbound traffic movement to cater for any vehicles turning right into the site.

Please feel free to contact me on 4032 7979 should you have any queries.

Yours sincerely,

Sean Morgan

Director
