**AMERICOLD PROSPECT EXPANSION EIS  
554-562 RESERVOIR ROAD  
PROSPECT**

20 April 2023

Dear Dave,

TfNSW provides following updates to previous correspondence dated 15 February, noting no objections to the proposal however, the following comments provided:

1. TfNSW proposes to convert the current intersection, as part of the upgrade works at Prospect Highway and Reservoir Road anticipated to be complete prior to end of 2024, from a roundabout to traffic signals. These works would also include a central median in Reservoir Road from Prospect Highway to Americold's proposed northern driveway, designed and funded by TfNSW. Accordingly, restricting Americold's existing southern driveway to left-in/left-out.
2. TfNSW have no objections to TfNSW property - Lot 17 DP802753 - at the end of Reservoir Road, being used as a turning circle. To do so, landowners' consent will need to be obtained and the design and construction should be in accordance with Council's requirements and at no cost to TfNSW. Also, TfNSW has no objection to Americold's expansion and continued access to/from Reservoir Road at the existing driveway until the intersection of Prospect Highway and Reservoir Road becomes traffic signal controlled.
3. A Road Occupancy Licence (ROL) should be obtained from Transport Management Centre via <https://myrta.com/oplinc2/pages/security/oplincLogin.jsf>, for any works that may impact on traffic flows on Prospect Highway during construction activities.

Any queries relevant to the subject proposal, please contact Brett Morrison via [development.sydney@transport.nsw.gov.au](mailto:development.sydney@transport.nsw.gov.au)

Sincerely,

**Muriel Maher**
