Subject: 21034 Interim Advice 5 RAP

This email is provided as Interim Advice and does not constitute a Site Audit Report or Site Audit Statement.

The Auditor has reviewed the remedial action plan provided by Douglas Partners, and is satisfied that the proposed remedial approach (combined shallow excavation and disposal with capping of deeper fill areas) and validation requirements are adequate and appropriate for the site and identified contamination (primarily asbestos in fill). The proposed approach is consistent with the Auditor's previous advice in relation to the earlier remediation strategy proposed by Douglas Partners.

The Auditor is satisfied that implementation of the RAP (Douglas Partners, 15.12.2021, Remediation Action Plan Pendle Hill High School Development, Cornock Avenue, Toongabbie), subject to validation in accordance with the requirements of the RAP and implementation of an EMP as required.

Sincerely

Tim Chambers

Hi Tim,

The following recent reports have been prepared and provided to the client:

- RAP
- AMP
- RWMS
- Data gap investigation
- Waste Class (building H South)

We have received Interim advice 4 on RWMS. DP understands from Taylor's that the following require your urgent comment/review:

- RAP

The other reports can be reviewed without the urgency.

Good luck with the move.

Kind regards
Paula
