Subject: 20220217 - TfNSW response - SSD-9774 - Hanson Eastern Creek

Hi Chris,

TfNSW reviewed the original Traffic Report produced by McLaren Traffic Engineer and understands that the traffic generation of 43 vehicle trips from the proposed development will not have significant impact on the performance of Wallgrove Road/ Wonderland Drive intersection. As such, TfNSW raises no further comment to the proposed development.

It is understood that due to the development of Eastern Creek Precinct, the traffic is growing rapidly. Once the ILP road connections from the precinct to Old Wallgrove Road are completed, the congestion on the Wallgrove Road/Wonderland Drive is expected to be eased. Currently TfNSW does not have any plan to upgrade the Wallgrove Road/Wonderland Drive intersection.

I hope this has been of assistance. If you have any question, please be in contact.

Regards

Felix Liu
