

Our Ref: SSD-9835-PA-115

Stephanie Ballango
Director
Consultant to Infrastructure NSW
P.O. Box R220
Royal Exchange, NSW 1225

16 June 2022

Dear Ms Ballango,

**Sydney Football Stadium Redevelopment – Stage 2 (SSD-9835)
Final Post-Excavation Report (Historic Archaeology), Condition C31**

I refer to the final Post-Excavation Report (Historical Archaeology) submitted to the Planning Secretary in accordance with condition C31 of the project Development Consent (SSD-9835).

I note that the final post excavation report:

- has been reviewed by Infrastructure NSW and no issues have been identified;
- identifies that the major archaeological find was two sandstone walls which are of local significance and remain 'in situ';
- specifies that no other significant archaeological deposits were found and, therefore, no artefacts were recovered; and
- has been submitted to the Department at the completion of the archaeological program.

Accordingly, I acknowledge receipt of the Post-Excavation Report, dated April 2022, for the Department's information under condition C31 of SSD-9835.

I remind you to submit a copy of the final report to NSW Heritage and the City of Sydney Council local studies library, if already not done so, and place the final report on the project website at the earliest opportunity.

If you have any questions or wish to discuss the matter further, please contact Tom Scoble at Thomas.scoble@dpie.nsw.gov.au.

Yours sincerely

Dominic Crinnion
Acting Director
Infrastructure Management

As nominee of the Planning Secretary
