Barrenjoey Head Amenities Building

Bronwyn Partell

Master of Archaeological Science

Heritage Consultant

Bronwyn is a specialist in field archaeology, with experience working on both historic and Aboriginal cultural heritage sites. Bronwyn's professional experience and competencies include undertaking extensive archaeological surveys and excavation, as well as providing specialist advice.

With over a decade of archaeological field experience, Bronwyn also has experience in preparing Aboriginal Cultural Heritage assessments under both New South Wales and Victorian legislation, for both residential and large scale projects. Bronwyn has developed a range of skills through her professional experience, including the management of fieldwork and site recording, artefact analysis, GIS mapping, database creation and management, as well as a strong set of communication and interpersonal skills. Having worked on a variety of projects both in Australia and abroad, Bronwyn understands the importance of heritage values on local, state, and national levels.
