

Indigenous tree palette (indicative)

Meleleuca linariifolia

A close-up, high-angle photograph of a dense field of small, daisy-like flowers. The flowers have multiple layers of thin, light purple or lavender petals radiating from a bright yellow center. They are growing in a lush green field with some taller grass visible between the flower heads. The lighting is bright, suggesting a sunny day, and the overall composition is a vibrant, textured expanse of color.

Brachyscome multifida

Lomandra 'Little Con'

Tulbarghia violacea
