Dear Mr Hodgson

**Sydney Metro West (SSI-10038)
Phasing Report Revision 1.3**

I refer to the revised Sydney Metro West Phasing Report (Revision 1.3, dated March 2022) which was submitted to the Planning Secretary for information in accordance with Condition A14 of the approval for the Sydney Metro West project (SSI-10038).

I understand that Revision 1.3 is an update to the Phasing Report to:

- revise the scope of Phase C1 to include asbestos removal and management at the Westmead Metro station site.

I note that Revision 1.3 of the Phasing Report:

- has not changed in the predicted level of environmental risk and community concern since Revision 1.1;
- contains details of the activities to be carried out in each phase and the general timing; and
- has been reviewed and endorsed by the project's Environmental Representative.

You are reminded that if there is any inconsistency between the Stage 1 Phasing Report Revision 1.3 and the conditions of approval, then the requirements of the conditions of approval will prevail.

If you wish to discuss the matter further, please contact Minna Kilpelainen at minna.kilpelainen@dpie.nsw.gov.au.

Yours sincerely

Matthew Todd-Jones
