Ryan Butler
Acting Director Environment, Sustainability and Planning
Sydney Metro

Attention: Andrew Hendy – Manager Environment

17/1/2025

**Subject: Sydney Metro West, Western Tunnelling Package, Clyde Utility Works
- Request for Planning Secretary Agreement for the Application of Condition D71.**

Dear Mr Butler,

Thank you for submitting the 'Request for the Planning Secretary's Determination for the Application of Condition D71' dated 19 December 2024 on 19 December 202, in accordance with condition D71 of SSI 10038.

Sydney Metro has requested Planning Secretary agreement that a Detailed Site Investigation is not required for proposed utilities search investigation and installation works at Clyde (as outlined in the request), in accordance with condition D71.

The request and supporting documentation outlines the proposed utilities works are to be undertaken in close proximity to, but outside of the project construction site boundary, in the road reserves of Colquhoun Street, Unwin Street and Shirley Street. These road reserves have a moderate potential contamination risk as determined by the Environmental Impact Statement documentation of the planning approval.

Consequently, the utility work will result in the disturbance of moderate to high risk contaminated sites as identified in documents listed in Condition A1 of the Planning Approval. However, the request and supporting documentation sufficiently justifies that a DSI is not necessary for the proposed utility works as required by Condition D71, based on the adapted works methodology and adherence to relevant management plans, sub-plans and procedures.

As nominee of the Planning Secretary, I agree that a Detailed Site Investigation is not required for the proposed utility works (as described in the request), in accordance with Condition D71.

The project contractor is expected to manage any risks associated with the utility works in line with approved Construction Environmental Management Plans and sub-plans and relevant procedures including an Unexpected Finds Protocol.

If you wish to discuss the matter further, please contact Leanne Mariani at leanne.mariani@dpie.nsw.gov.au

Yours sincerely
