

Submission for: Project EnergyConnect (NSW - Western Section)

Comments

WaterNSW

PARRAMATTA, New South Wales

Message

WaterNSW has no major water supply assets or land in the area impacted by the project, however there are a large number of surface and ground water monitoring sites in the vicinity. WaterNSW requests that the applicant ensure measures are implemented to provide continued access to these sites by WaterNSW staff and/or contractors during works as part of the traffic management plan. For further information please contact Cath Hall, Water Monitoring Area Manager South West, Buronga at cath.hall@waterNSW.com.au.
