Response History

Public Authority Response

Wednesday, 21 July 2021 9:36:11 AM AEST

Notes:

Thank you for allowing WaterNSW to comment on SSI-10040 for Project EnergyConnect (NSW – Western Section).

WaterNSW supports the mitigation measures and commitments made within the Submissions report to safeguard WaterNSW assets from impact, specifically safeguard SCG07. WaterNSW agree that the draft conditions mitigate potential impact.

As such WaterNSW has no specific comment to make regarding the Draft Conditions of Consent, but recognise that draft condition A8 for the protection of public infrastructure should be included in any determination made by the Department.

If you have any questions regarding this response, please contact Justine Clarke at justine.clarke@waternsw.com.au.

Thank you

Justine Clarke
