21/10/2022

Subject: Project EnergyConnect (NSW - Western Section) Stage 2 (SSI 10040) - Condition D39
Dilapidation Survey

Dear Mr Fisher

I refer to the Stage 2 Dilapidation Survey which was submitted to the Department on 29 June 2022 as required under condition D39 of SSI 10040.

I note the Stage 2 Dilapidation Survey:

- has been completed by an independent organisation, Pavement Management Services Pty Ltd;
- includes an assessment of the existing condition of all local roads prior to construction as required by condition D30(a);
- has been reviewed by Wentworth Shire Council and Transgrid and no issues were raised; and
- has been completed to the satisfaction of the Planning Secretary as required by condition D39.

You are reminded of your obligation as per condition D39(b), to repair (or pay the full costs associated with repairing) any damage to local roads on the transport route damaged by the development during construction, upgrading or decommissioning works.

Please ensure you make the document and this approval letter publicly available on the project website.

If you wish to discuss the matter further, please contact Sarah Kamarudin at sarah.kamarudin@dpie.nsw.gov.au.

Yours sincerely

Dominic Crinnion
Acting Director
Infrastructure Management

As nominee of the Planning Secretary
