

Appendix X

Transport for NSW Environmental Record

BLANK PAGE

Date	Circumstance
2 February 1998	The NSW Land and Environment Court found that RTA grit blasting operations on the Wallaby Rock Bridge over the Turon River near Bathurst resulted in material containing paint, limestone and copper slag grit entering the river.
3 June 1998	Penalty Notice (P8669550) for inadequate sediment controls at an RTA site on the corner of Stoney Creek Road and King Georges, Beverly Hills.
21 February 2000	Penalty Notice (Z0578326) issued to RTA for the inappropriate cleaning of a bitumen sprayer at a roadside stockpile site near Bowenfels. The infringement was for cleaning the sprayer at a location which created the potential to pollute an onsite drain and possibly other waters.
18 January 2002	Penalty Notice (N7899706) issued to RTA for contravention of a condition of environment protection licence number 10008 for the Pacific Highway Upgrade at Mullumbimby. Sub contractor employed an incorrect sediment basin pump out procedure.
28 October 2002	Penalty Notice (B5102543) issued to RTA for the Mona Vale Road upgrade project for pollution of waters. Sediment laden water escaped the site into stormwater drains during the works.
7 August 2006	Penalty Notices (7616962760 & 7616962751) Issued to RTA for failing to supply Dangerous Goods Shipping documents to two drivers of asphalt trucks near Nyngan, western NSW.
8 November 2007	Penalty Notice (7616957069) issued to RTA for unauthorised discharge of water from a construction site to an adjacent water course at Pambula.
11 December 2008	Penalty Notice (7616963164) issued to RTA for clearing of native vegetation (Myall Woodland) adjacent to Mitchell Highway west of Trangie.
29 April 2008	Penalty Notice (7633250250) issued to RTA for pollution of waters as a result of inadequate sediment control measures, Great Western Highway, Marangaroo.
29 June 2009	Penalty notice (3014073848) issued to TIDC for a breach of its environment protection licence in relation to works undertaken out-of-hours without the necessary approvals in place on the Cronulla Line Duplication project.
28 September 2010	Penalty Notice (7601508934) issued to RTA for a breach of environment protection licence 13204 for failure to maintain pollution control equipment leading to the discharge of material from the Oxley Highway Upgrade construction works at Port Macquarie.
22 October 2010	Penalty Notice (7601508961) issued to RTA for pollution of waters arising from discharges from the Central Coast Highway Upgrade project.
31 March 2011	3 Penalty Notices (3013382406, 3013382415 & 3013382424) issued to RTA for breaches of Dangerous Goods transport legislation for a fleet vehicle on New England Highway.
17 November 2011	Penalty Notice (3068038537) issued to RTA for pollution of waters of Byarong and America Creeks, Wollongong for failure to fully implement the sediment and erosion control measures outlined in the REF for the project.
15 June 2012	Penalty Notice (3085764202) issued to RMS for a breach of environment protection licence 13135 for failure to operate pollution control equipment to prevent the discharge of material from the Central Coast Highway upgrade construction works at Erina Heights.
17 January 2017	Penalty Notice issued to RMS for breaches of Dangerous Goods transport legislation for a Roads and Maritime vehicle on Cormorant Road at Kooragang.

Circumstances in relation to s 4.3.1.

Supporting information

Transport for NSW (including the former Roads and Maritime Services) is a major infrastructure agency with responsibility for the delivery of a substantial transport infrastructure construction and maintenance program. Given the scale and complexity of works undertaken, Transport for NSW has a very good environmental record and puts significant resources into environment and conservation measures on its construction and maintenance projects. Transport for NSW is committed to reducing its impact on the environment through continual environmental performance improvement.
