Subject: Direction made under condition A5 of Sydney Metro Western Sydney Airport project (SSI-10051) for erosion and sediment control – Station Box and Tunnelling sites

Dear Mr Chapman,

I refer to the Direction issued on 5 June 2023 (as revised on 28 June and 3 July 2023) concerning erosion and sediment control measures at the Station Box and Tunnelling (SBT) sites for the Sydney Metro Western Sydney Airport project.

I thank you for submitting the audits and responses required under the Direction, including the final *Soil Conservationist Audit of Erosion and Sediment Controls; Western Sydney Airport Metro SBT; 27 July 2023*, dated 4 August 2023 (the July Audit), and your response to the Department's subsequent Request for Information closing out any outstanding items.

I consider the information provided sufficient to close out the concerns that led to the issue of the Direction.

Please note that the requirements of the Direction to publish the audits and responses (points 5 and 6) remain in effect.

Should you wish to discuss the matter further, please contact Grant Rokobauer at grant.rokobauer@dpie.nsw.gov.au.

Yours sincerely

A handwritten signature in black ink, appearing to read "D Crinnion".

Dominic Crinnion
Director
Infrastructure Management
