Appendix E Preliminary land requirements

The following tables outline the land requirements for the Narrabri to North Star (N2NS) Phase 2—Moree to Camurra North project (the proposal). The temporary land occupation required for construction (which would be held under lease agreements with landowners) is outlined in Table E1 and the permanent land acquisitions are listed in Table E2.

The data provided in the below tables is extracted from the ARTC adjusted cadastral survey data as at July 2021.

It is noted that the temporary occupations and permanent acquisitions are calculated based on the construction impact zone (CIZ) and may be further refined during the detailed design stage.
