Preliminary land requirements

The proposed temporary occupation and use of these areas is subject to further engagement and agreement with landowners. Initial discussions about establishing agreements with landowners for the proposal's property requirements commenced in March 2022. As discussions are ongoing, the location and area of individual property requirements may change or be removed. The final land requirements for the proposal would be confirmed during detailed design.

Enhancement site	Lot/DP	Area (ha)
Murray River bridge	N/A	0.13
