Subject: Inland Rail Albury to Illabo (SSI - 10055) Construction Environmental Management Plan condition C2, C3

Dear Mr. Clark

I refer to your submission requesting approval of the Construction Environment Management Plan (CEMP) Stage A, revision 3, dated 24 February 2025 as required by condition C2 and C3. I also acknowledge your response to the Department's review comments and request for additional information.

I note the CEMP:

- has been reviewed by proponent and no issues have been raised with the Department;
- has been endorsed by the ER; and
- contains the information required by the conditions of approval.

The Department reminds you that the CEMP for stage B must be developed and approved prior to stage B works commencing; and that CEMP subplans require separate approval from the Secretary.

Accordingly, as nominee of the Planning Secretary, I approve the Construction Environment Management Plan (CEMP) Stage A, revision 3, dated 24 February 2025.

Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Scott Cooper at Scott.Cooper@planning.nsw.gov.au.

Yours sincerely

Alexander Scott
Director
Freight Assessments
As nominee of the Planning Secretary
