Re: Oven Mountain Pumped Hydro Energy Storage Project (SSI-12422997) Amendment Report - Minor correction to Appendix K

Dear Nicole,

On behalf of OMPS Pty Ltd (the 'Applicant'), EMM Consulting Pty Ltd (EMM) prepared an Amendment Report for the Oven Mountain Pumped Hydro Energy Storage Project (SSI-12422997).

We write to the Department of Planning Housing and Infrastructure (DPHI) to advise of an error in Appendix K (Amendment Report – Social Impact Assessment) to the Project's Amendment Report and provide a correction to this error within this letter.

Page 10 of the report included a graphic showing a histogram of workers by source over the construction period. This graphic is an erroneous replication of the original assessment and is superseded by an updated histogram, which is included as part of the Amendment Report (Figure 1.28 of Appendix A – Detailed Project Description).

This updated graphic reflects the data presented in the report and does not change the detail presented in Appendix K. It is also consistent with the data and graphic presented in the Amendment Report.

The Applicant looks forward to continuing to work with DPHI through the assessment process.

Yours sincerely

Ruth Kelly

Associate Director
