

Moomba to Wilton Pipeline - East Coast Grid Expansion State Significant Infrastructure 15548591 Notification

East Australian Pipeline Pty Ltd, as part of the APA Group (APA), has made a request to modify State Significant Infrastructure (SSI) approval SSI 15548591 under Section 5.25 of the *Environmental Planning and Assessment Act 1979* (EP&A Act) for the East Coast Grid Expansion Project.

The Modification Request is for amendments to the Stage 2 Compressor Station already approved as a part of Modification 1. The amendments assessed and included as a part of this Modification include a proposed increased construction footprint and the assessment of groundwater impacts associated with the drilling and use of a production bore.

The Modification Request is proposed to be carried out on Lot 3 DP593787 within the Central Darling Shire Council local government area.

Pursuant to Clause 181 of the *Environmental Planning and Assessment Regulation 2021* (the Regulation), notification of the Modification Request must be made by the proponent (APA).

Accordingly, APA as the applicant, gives notification pursuant to Clause 181 of the Regulation that the Modification Request has been made for SSI-15548591.

The Modification Request has been lodged with the NSW Department of Planning and Environment (DPE) and will be publicly exhibited by DPE so that the public can provide feedback on the project.

For further details on the project, including contact details, please visit the project webpage on the APA Group website at apa.com.au/about-apa/our-projects/east-coast-grid-expansion/
