Subject: HumeLink – HumeLink East Traffic and Transport Management Plan

Dear Mr Roberts

I refer to the updated HumeLink East Traffic and Transport Management Plan (HLE TTMP) (Rev 04 dated 1 April 2026) submitted in accordance with Condition B39 of the Approval for the HumeLink Project (SSI-36656827; Approval). I also acknowledge your response to the Department's request for additional information.

I note the updated HLE TTMP:

- has been updated to include the oversize/overmass movements (OSOM) delivery of reactors to Bannaby 500 kV substation (Stage 3A(v);
- has been prepared in consultation with Transport for NSW (TfNSW), Upper Lachlan Shire Council and Goulburn Mulwaree Council;
- has been reviewed by Transgrid and no issues have been raised with the Department.
- has been endorsed by the ER, Derek Low; and
- contains the information required by the conditions of Approval.

Accordingly, as nominee of the Planning Secretary, I approve the HumeLink East Traffic and Transport Management Plan (Rev 04 dated 1 April 2026), in accordance with Condition B39 and Condition A3(a) of the Approval.

You are reminded that if there are any inconsistencies between the HLE TTMP and the conditions of approval, the conditions prevail.

Please note that requirement one (1) outlined in the Department's 7 August 2025 HLE TTMP (Rev 01.9 dated 4 August 2025) conditional approval (SSI-36656827-PA-98) continues to apply to further updates to the HLE TTMP for cable stringing across the State road network, Stage 3A(iii).

If you wish to discuss the matter further, please contact Erin O'Mara, Transmission Post Approvals.

Yours sincerely

Thomas Minchin  
**Team Leader Transmission Post Approval**
