Subject: HumeLink – Enabling Works Management Plan (Revision 5.3.2, dated 6 June 2025)

Dear Mr Roberts

I refer to the Enabling Works Management Plan (Revision 5.3.2) submitted in accordance with Condition B64, Schedule 2 of the approval for the HumeLink project (SSI-36656827). I note the Enabling Works Management Plan has been revised from the version previously approved by the Department (revision 5.3) on 21 March 2025 to address the following changes:

- changes to additional enabling works checklist (Appendix G of the EWMP) to provide additional guidance and capture Transgrid approval
- changes to EWMP mitigation measures relating to use of GPS on mobile plant to ensure its feasible and in alignment with the UMMs B13, AH2, AH4.

In accordance with the requirements of condition A13(c), Derek Low (project ER), has reviewed the updates made and confirmed that:

- the changes constitute minor amendments, which are administrative in nature and do not increase impacts to nearby sensitive receivers, and the EWMP remains consistent with the terms of the Approval.

You are reminded that if there are any inconsistencies between the Enabling Works Management Plan (Revision 5.3.2) and the conditions of approval, the conditions prevail.

Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Rebecca Eddington at Rebecca.a.eddington@dpie.nsw.gov.au.

Yours sincerely

Rebecca Eddington
Director Transmission Post Approval

As nominee of the Planning Secretary
